No Innocent Deposits Richard J. Cox, 2003-12-10 The public increase of interest in the past has not necessarily brought with it a greater understanding about how archives are formed To this end Richard Cox takes a serious look at archival repositories and collections Cox suggests that archives do not just happen but are consciously shaped and sometimes distorted by archivists the creators of records and other individuals and institutions In this series of essays Cox offers archivists rare insight into the fundamentals of appraisal and historians and other users of archives the opportunity to appreciate the collections they all too often take for granted

Napoleon Philip Dwyer, 2018-04-19 Vibrant and illuminating Dwyer tells a fascinating tale The Times Refreshing scholarship Energetic readable and filled with colourful detail Napoleon Passion Death and Resurrection is a thoroughly enjoyable book which divides well the reality of exile from the legend that sprang from it Literary Review This meticulously researched study opens with Napoleon no longer in power but instead a prisoner on the island of St Helena This may have been a great fall from power but Napoleon still held immense attraction Every day huge crowds would gather on the far shore in the hope of catching a glimpse of him Philip Dwyer closes his ambitious trilogy exploring Napoleon's life legacy and myth by moving from those first months of imprisonment through the years of exile up to death and then beyond examining how the foundations of

legend that had been laid by Napoleon during his lifetime continued to be built upon by his followers This is a fitting and authoritative end to a definitive work **Rest in Pieces** Bess Lovejoy, 2013-03-12 A marvelously macabre Kirkus Reviews history of the bizarre afterlives of corpses of the celebrated and notorious dead For some of the most influential figures in history death marked the start of a new adventure The famous deceased have been stolen burned sold pickled frozen stuffed impersonated and even filed away in a lawyer's office Their fingers teeth toes arms legs skulls hearts lungs and nether regions have embarked on voyages that crisscross the globe and stretch the imagination Counterfeiters tried to steal Lincoln's corpse Einstein's brain went on a cross country road trip And after Lord Horatio Nelson perished at Trafalgar his sailors submerged him in brandy which they drank From Alexander the Great to Elvis Presley and from Beethoven to Dorothy Parker Rest in Pieces connects the lives of the famous dead to the hilarious and horrifying adventures of their corpses and traces the evolution of cultural attitudes toward death Did They Rest in Peace? Joseph William Lewis Jr. M.D., 2018-10-18 Ashes to ashes dust to dust By what miracle can an assortment of seemingly unrelated particles come together and correctly assemble to form a human being Amazingly once aggregated these atoms molecules and compounds manage to interact reasonably coherently during our lives but seek to return to their dusty state when death occurs Of the billions of our species who have existed on earth over the millennia most have quietly and inexorably returned to ashes and dust when their term of life expired This book tracks some of the misadventures of selected corpses including burials that went awry to body snatching exhumations human relic collection and assorted desecrations Over the years it seems that a remarkable number of bodies have failed to enjoy the admonition to Rest in Peace Whether these aberrations in the burial process have disturbed the afterlife of the departed everyone is dying to discover the answer *God Knows All Your Names* Paul N. Herbert, 2009 People with only a slight interest in history will enjoy these fascinating short and easy to understand stories Serious history buffs will like these lesser known episodes not the stories we've heard a million times For example try to find anyone who knows about the attempted slave insurrection in Fairfax County Virginia With Mary Lincoln's spending habits who knew that Abraham Lincoln actually saved an enormous percentage of his presidential salary A slave honored in Virginia with a monument the history of Lee Highway which opened with great fanfare in 1923 as a 3 000 mile road from Washington DC to San Diego a story about the Little River Turnpike the second oldest turnpike in America built partly by slaves and captured Hessian soldiers You'll read about two Civil War ships that collided in the Potomac River Victims included wounded soldiers wives and one soldier's six year old son You'll read a great account of the massive Civil War corruption You'll learn about the disastrous condition of the treasury sound familiar during the Revolutionary War The government tried everything including a lottery to get the country afloat in a sea of red ink But the most fascinating story may be about the Revolutionary War soldier who faked his own desertion to defect to the enemy with the highly secretive mission of going behind enemy lines to capture and return for trial the worst traitor in American history Benedict Arnold Bet you never heard of this story There are

many other stories in this eclectic heavily researched manuscript There s a story about the Christmas Truce in World War One about long forgotten holidays in Virginia about the retrocession which sent an area of Washington back to Virginia in 1846 and about the impeachment of a Supreme Court justice it happened only once And more **The Publishers Weekly**,1996 **CUES: Choose, Use, Enjoy, Share** Phyllis B. Leonard,1998-08-15 Calling for structured interaction between students and books Leonard specifies how teachers and media specialists can collaborate to create a library media centered program that develops the talents of all K 6 students The ultimate goal is to encourage reading and build reading comprehension questioning and thinking skills Models groupings strategies and materials are suggested in a grade appropriate scope and sequence The latest theories about the process of education thinking multiple intelligences how children learn individually and cooperatively as well as effective grouping and teaching strategies for differentiation are discussed The book also has sample lessons and scenarios drawn from the author s experience Grades K 6
