Peac Ing It Together:

Peacing the World Together FRANK JAMES UNGER,2007-11-14 A small refrigerator magnet has adorned our kitchen for more years than I can remember It bears the image of a dove with the words Let there be peace at least between you and me The three square inches it has displaced is opposite in proportion to its magnitude in the lives of family and friends It is a mantra a goal a challenge Because for so many peace does not come easily or naturally Archeological evidence substantiates human irascibility Indeed Homo sapiens were endowed with tendencies toward turbulence Bones shattered by instruments of humanoids are not uncommon to ancient skeletons Written documents confirm the same Cain and Able David and Goliath dozens of bloody wars and holocausts are recorded in biblical and pre biblical documents that manifest mankind's snarling crotchety predisposition to conflict and violence Discouraged by that disturbing legacy we recognize exceptions Though peace is an intentional accord it is made easier for some who luckily avoid the ancestral consequence of contentiousness Through genetic good fortune they are endowed with intrinsic tranquility and a special quiet devoid of malevolence Gladly they accept the gift of unsolicited good genes Acknowledging a quarrelsome nature then we embark on this journey of peace the road made smoother through relevant prayer prose and poetry Each step is an encounter with a peace borne naturally or achieved the hard way In either case the following pages are channels of peace at least between you and me And so we reach out together striving to influence families and cities states and nations peacefully After all the leaders of mighty and minute countries alike agree that the key to peace between all lands is that it begins within individual hearts homes and families For only then can it infect every place on a precious earth we will someday call peaceful Of all the arboreal wonders on earth none is more amazingly self propagating than Ficus Benghalensis the banyan tree A massive improbable sight to behold the banyan puts down feelers from its branches the feelers grow into the ground and become roots and the new roots pump sap up and act as support struts for the tree In this way the tree grows outward Equally as amazing banyans count their days in hundreds of years as they create the widest natural canopies in the world A single tree can provide shade for an entire village It is said that Alexander the Great camped with an army of 7 000 soldiers under the shade of one banyan In more recent years an imposing banyan tree has spread its arms and roots over one full acre of land in the city of Fort Myers Florida Its notoriety and location are the result of a friendship between two of Americas early business pioneers men who were close personal friends The time was 1925 One of the men visited the county of Andhra Pradesh in India and came upon the largest banyan tree in the world having since reached 570 years in age and covering the breath of 14 acres with 1 650 roots At the time of his visit the entrepreneur had a vested interest in the tree suspecting it might prove valuable as a source of natural rubber He brought a seedling back to his friend who had a Winter residence in Fort Myers The friend was delighted with the gift and planted it on his estate It grew well and still delights guests Harvey Firestone was the purveyor of the seedling His friend Thomas Edison was the recipient To this day seedlings of Edisons great tree are sold at his estate one of them growing

in fine health on this writers property Similarly admirers from around the world have procured seedlings and carried them back to faraway lands Hence the legacy of the giant tree of India is proliferated by the tree of Thomas Edison now renowned as the third lar **Peace~ing Together One Family!** Raymona Louise Abouzeid,L Abouzeid,2000-12 Children today have a tremendous responsibility as they become leaders of tomorrow Learning to live in peace in a global community will be their destiny To help facilitate this process this peace guide creatively interacts art projects and activities that can develop awareness and inspire new generations in creating a planet committed to peace Peace ing Together One Family is a unique way for all those who work with children to incorporate peace solving strategies into a child s everyday life Each of the twelve units contains five art projects and two activities which are designed for ages two to nine years The young children will with the proper guidance and approach develop such qualities of self respect admiration in others consultation as well as an understanding of concepts such as equality unity in diversity appreciation humility discipline and self control In addition these projects can be incorporated into any academic subject area and the materials required to complete them are inexpensive and can be found in any home hardware or local store The Big Book of Therapeutic Activity Ideas for Children and Teens Lindsey Joiner,2011-10-15 Drawing on art music stories poetry and film the author provides more than 100 fun and imaginative therapeutic activities and ideas to unleash the creativity of children and teenagers ages 5 and older with the activities designed to teach social skills development anger control strategies conflict resolution and thinking skills Original Peace is a Doing Word Barbara Glasson,2022-05-01 Poetry story and prayers help us reflect on what practicing peace means in every moment of our daily lives This book offers insights throughout the course of the day from waking to resting and concludes each section with a blessing Catalog of Copyright Entries Library of Congress. Exchanges between Rival Societies Chuing Prudence Chou,Jonathan Spangler,2018-09-26 This book stimulates discussions on cultural and educational exchanges between rival states and societies raises awareness of the potential positive and negative impacts of such exchanges and serves as a basis for future research and program design Cultural and educational exchanges in various forms have existed for millennia Yet it was not until the unprecedented human devastation of two world wars catalyzed a sense of urgency around the world that a new era of cultural and educational exchange programs emerged as a means of easing tensions between rival states and societies This book is motivated by the need for critical research that can contribute to building a more comprehensive understanding of the issues at stake It begins with a historical overview of cultural and educational exchanges between rival societies an assessment of their positive and negative impacts and a review of some of the most prominent theories in relevant fields It then presents a diverse set of case studies in which authors consider not only the real or expected benefits of such exchanges but also the potentially negative impacts challenges faced along the way and broader effects on the rival societies at large The states and societies considered include North Korea and the West Bosnia and Herzegovina Israel and the Palestinian territories India and Pakistan China and Taiwan Cuba and the US and China and the US Taken together the chapters demonstrate that exchanges have observable impacts on the individuals and institutions involved Moreover they reveal that exchanges have the capacity in some cases to affect broader social and political change at the family community society or state level but these impacts are indirect and typically require long term concerted efforts by those involved
