In the top row, from left to right, are Mahatma Gandhi in a white shawl, Bertha von Suttner in a dark dress with a high collar, the 14th Dalai Lama in maroon robes holding a yellow flower, and Jane Fonda in a dark dress. In the bottom row, from left to right, are Mother Teresa in a white and blue sari, Nelson Mandela in a suit and tie, and Martin Luther King Jr. in a suit and tie. The title "PEACE MOVEMENTS" is centered over the middle of the image in large, white, bold, sans-serif capital letters.

Peace Movements Of The World:

Peace Movements April Carter,1992 There is a long tradition of opposition to war and organized peace campaigns date from 1815 Since 1945 however modern weapons technology has threatened world wide destruction and has stimulated widespread protests *Peace Movements: International Protest and World Politics Since 1945* April Carter,2014-09-11 There is a long tradition of opposition to war and organized peace campaigns date from 1815 Since 1945 however modern weapons technology has threatened world wide destruction and has stimulated widespread protests This book sketches in the background of thinking about peace and resistance to war before 1945 and then examines how public opposition to nuclear weapons and testing grew in the 1950s and early 1960s Later chapters cover the major resurgence of nuclear disarmament campaigns in the 1980s The book also looks at how peace protest has spread from its origins in North America and North West Europe to embrace many parts of the world opposition to nuclear testing has indeed been particularly strong in Japan Australia New Zealand and the Pacific islands The period 1945 to 1990 was dominated by the Cold War between the USA and USSR and the role of the Soviet sponsored World Peace Council caused difficulties for independent peace groups in the West During the 1980s the emergence of autonomous peace activity in a number of East European countries and even on a very small scale in the USSR itself transformed the possibilities for East West co operation between citizens to urge disarmament and political change A chapter examines these developments Opposition to all forms of militarism has spread in the last 30 years This book charts the struggles to extend the right to conscientious objection to military service and draft resistance to particular wars for example in Southern Africa and Israel It also looks in some detail at the growing opposition to the war in the Vietnam The recent protests against the Gulf War are surveyed briefly in an epilogue **The American Peace Movement and Social Reform, 1889-1918** C. Roland Marchand,2015-03-08 The history of the peace movement in the United States was one of dramatic change in the mid IKWs it consisted of a few provincial societies by 1912 it had become eminently respectable and listed among its members an impressive number of the nation s leaders by 1918 it was once again weak and remote from those who formulated national policy Along with these fluctuations went equally substantial changes of leadership and purpose that as C Roland Marchand emphasizes reflected the motives of the various reform groups that successively joined and dominated the movement Most of those who joined were not devoted solely to the cause of world peace but saw in the programs of the movement a chance for the fulfillment of their own more immediately relevant goals Consequently the story of the peace movement reflects the concerns of such groups as the international lawyers who wanted a world court of arbitration as an alternative to war the business leaders who believed that international economic stability would be endangered by war and the labor unions who felt that the working class suffered most in war Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve

Pfaltzgraff,2019-07-09 In the early 1980s the peace movements in most of the Western countries captured public attention as never before This largely resulted from NATO s decision in 1979 to deploy new medium range missiles in Europe in 1983 if negotiations with the Soviet Union to limit this type of weapon system failed The main purpose of the peace movements in Europe was to put pressure on their respective governments to accept Soviet proposals in negotiations and not to deploy new missiles Many large demonstrations and other happenings were organised for this purpose The Soviet and other Warsaw Pact countries accompanied and supported the activities of the peace movements by propaganda and disinformation campaigns The national peace movements despite their common aims had different historic backgrounds and characteristics This book originally published in 1985 presents an authoritative review of the peace movements in Sweden Denmark Norway the Netherlands Great Britain France Italy Germany and the United States The authors discuss not only the history and organisation of each peace movement but also their international cooperation media coverage and prospects for the future *Encyclopedia of Violence, Peace, and Conflict* ,2008-09-05 The 2nd edition of Encyclopedia of Violence Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester

pedagogical approach of the textbook that is appreciated is how the author respectfully engages with the theories of IR and is not pushing an agenda of denouncing some theories and trying to persuade the reader of others. We live in such polarizing times that it is truly refreshing to read scholarly work that avoids sensationalistic attacks on theories that have been debated for decades. Each theory in this manuscript is explored on its own terms and the reader is encouraged to figure out where they stand on these enduring debates in the context of Indo Pacific security. The approach will lead to compelling classroom discussions of the theories and the politics of the region. This book is a must read for any student or observer of security trends in the region. Security in the Asia-Pacific Sorpong Peou, 2010-04-15. Demonstrating that none of the various perspectives under review has emerged as the clear winner in the struggle for theoretical hegemony in security studies, this book shows that eclectic perspectives like democratic realist institutionalism can better explain peace and security in the Asian Pacific. The Asian Pacific has emerged as one of the most important regions in the world, causing scholars to pay increased attention to the various challenges old and new to peace and security there. *Peace and Security in the Asia Pacific: Theory and Practice* is a comprehensive critical review of the established theoretical perspectives relevant to contemporary peace and security studies in the light of recent experiences. Illuminating ongoing debates in the field, the book covers some 20 theoretical perspectives on peace and security in the Asian Pacific, including realist, liberal, socialist, peace, and human security, constructivist, feminist, and nontraditional security studies. The first section of the book discusses perspectives in realist security studies; the second part covers perspectives critical of realism. The author's goal is to assess whether any of the perspectives found in nonrealist security studies are capable of undermining realism. His conclusion is that each theoretical perspective has its strengths and weaknesses, leaving eclecticism as the best way to understand the region's dynamics.
