Creating Heritage Thomas Carter, David Harvey, Roy Jones, Iain Robertson, 2019-11-15 This book investigates the selection process of heritagisation to understand what specific pasts are being selected or rejected for representation who is selecting them how and to whom they are being represented and why they are being presented or dismissed in the ways that they are Some aspects of our pasts are venerated and memorialised for a variety of reasons while others are forgotten or even hidden This volume thus provides examples from across a spectrum Some phenomena are well suited to heritagisation such as animals memorialised for their bravery long past agricultural techniques and implements and impressive landscapes However this book also deals with products e.g tobacco historical periods e.g the Third Reich and scientific techniques e.g genetic modification with negative connotations that extend beyond their heritage attributes This

volume considers how the actors in the heritage industry admit valorise prioritise and rationalise historic resources as heritage products These findings provide practical examples of how heritage institutions privilege frame and or exclude a wide range of heritage items They also contrast the invocations of sectional local national or class based and more cosmopolitan heritages and consider the extent to which innovation and change are or can be acknowledged within the heritage discourse *Memory and Cultural Landscape at the Khami World Heritage Site, Zimbabwe* Ashton

Sinamai,2018-10-10 This book focuses on a forgotten place the Khami World Heritage site in Zimbabwe It examines how professionally ascribed values and conservation priorities affect the cultural landscape when there is a disjuncture between local community and national interests and explores the epistemic violence that often accompanied colonial heritage management and archaeology in southern Africa The central premise is that the history of the modern Zimbabwe nation in terms of what is officially remembered and celebrated inevitably determines how that past is managed It is about how places are experienced and remembered through narratives and how the loss of this heritage memory may mark the un inheriting of place *Memory and Cultural Landscape at the Khami World Heritage Site Zimbabwe* is informed by the author s experience of living near and working at Great Zimbabwe and Khami as an archaeologist and uses archives and traditional narratives to build a biography for this lost cultural landscape Whereas Great Zimbabwe is a resource for the state s contentious narrative of unity and a tool for cultural activism among communities whose cultural rights are denied through the nationalisation and globalisation heritage at Khami which has lost its historical gravity there is only silence Researchers and students of cultural heritage will find this book a much needed case study on heritage identity community and landscape from an African perspective *Our Pioneer Heritage* ,1959 This 20 volume series tells the story of Utah pioneers and their accomplishments through biographies diaries special stories about pioneer life and other documents

American Heritage History of the Pioneers Richard M. Ketchum,2015-10-12 America s story is made up of many elements but through it have coursed two main streams that have nourished and carried a people forward to a destiny that was beyond all imagining when the story began One of these is an idea that goes back to the rim of recorded time It was first a dim gnawing hope that the future lay in a magic land off to the west Once that land was found it drew people to it like a magnet It is easy to say that it was gold or precious stones or land that led them on for it was all of these Yet it was more and here was the second great stream of American history There was something that literally drove people westward goading them across the endless mountains through steep passes across searing plains and desert into the face of terrors known and those unguessed It was vision It was courage It was at times the sheer joy of overcoming fantastic obstacles And it was also the conviction that what they were doing was different from anything that had happened before that nothing would ever be quite the same again and that the world would be a better place for what they had accomplished Eastward I go only by force Henry David Thoreau said but westward I go free The sleep of 100 centuries was stirred up in that surge toward the sunset for out of it emerged not only a

new people and a new nation but a force that changed the globe Publication ,1995 **I Bytes Banking Industry** ITShades.com,2021-01-02 This document brings together a set of latest data points and publicly available information relevant for Banking Industry We are very excited to share this content and believe that readers will benefit from this periodic publication immensely **Mormon Identities in Transition** Douglas Davies,2016-10-06 This collection of interdisciplinary essays explores the prime concern of Mormon Studies the relationship between knowledge and spirituality and how that relationship has been defined and reinterpreted over time Beginning with an examination of the international prospects for Mormonism at the turn of the century the volume s overarching theme from sociological anthropological and theological approaches is the examination of changing Mormon identities The contributors review the expansion of Mormonism the emotional and social contexts of its historic and contemporary manifestations the distinction between Utah Mormons and the Reorganized Church of Jesus Christ of Latter Day Saints and issues in Mormon feminism concluding with a valuable review of the sources and documents available for studying Mormonism **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** United States. Cultural Parks and National Heritage Areas Pablo Alonso González,2013-11-13 The number of cultural parks has been steadily increasing in recent years throughout the world But what is a cultural park This book provides a detailed answer to this question and sets out the basis for an academic debate that moves beyond the technical narratives that have prevailed to date It is important to open up the topic to academic scrutiny given that cultural parks are becoming widespread devices being employed by different institutions and social groups to manage and enhance cultural and natural heritage assets and landscapes The main problem in dealing with this topic is the predominant lack of theory grounded critical reflection in the literature about cultural parks These remain largely conceived as technical instruments deployed by institutions in order to solve an array of problems they must deal with As cultural parks are generally regarded as positive and constructive tools whose performance is associated with the preservation of heritage the overcoming of the nature culture divide the reinforcing of identity and memory and the strengthening of social cohesion and economic development this book critically explores these issues through the analysis of the literature on cultural parks In addition it provides a novel theoretical conceptualization of cultural parks that is connected with and underpins a tentative methodology developed for their empirical analysis The Bicentennial of the United States of America American Revolution Bicentennial Administration,1977 **A Pioneer Heritage** Sam T.
