Europäische Union zwischen Konfusion und Vision Paul Michael Lützeler, Michael Gehler, 2021-11-15 Beim Nachdenken darüber wie desintegrierende Entwicklungen wie jene hin zum Brexit in der Europäischen Union verhindert werden können stehen drei Themenbereiche im Mittelpunkt erstens Werte und Sprachen zweitens interne Krisen und drittens Initiativen im Umgang mit anderen Staaten und kontinentalen Wirtschaftsverbänden Die kulturellen Eigenheiten Europas werden profiliert und in ihrer Nachhaltigkeit in Erinnerung gerufen Zu ihnen gehört auch die Pflege der Sprachenvielfalt in der Praxis der Kommunikation in den Verwaltungseinheiten der EU Bei der Frage nach der demokratischen Praxis wird erneut ein Blick auf die sich weiternden Befugnisse des Europäischen Rates geworfen Krisensymptome in der Flüchtlingspolitik bei der Wahrnehmungseinheit der Verteidigungsstrategie und den Außenbeziehungen werden ausführlich diskutiert From EC to EU Richard McAllister, 2005-08-18 First published in 1997 Routledge is an imprint of Taylor Francis an informal company

Constitution Building in the European Union: The Process of Treaty Reforms Brendan Smith, 2002 This book focuses on the negotiations of what are termed the eight constitutional IGCs These eight include the negotiations of the 1950s and 1960s on the European Coal and Steel Community the European Defence and Political Community the European Economic Community and European Atomic Energy Community the Fouchet Plan the Single European Act the Maastricht Treaty the Amsterdam Treaty the Nice Treaty The book challenges the neofunctionalist and liberal intergovernmentalist perspectives that have been used in the past to explain the process of IGCs The author presents an alternative perspective in the form of

an incremental model to explain the nature of negotiations at all eight constitutional IGCs It is also argued that the increasing frequency of IGC negotiations signifies a gradual institutionalisation of the process to the point where the constitutional IGC is becoming a regular feature on the EU's political landscape Governments are locked into a process of constitutional IGCs that leaves the primary legal document of the EU in a state of perpetual reform In turn it is argued that the incrementalism that defines the IGC negotiations shapes the entire process of European integration and the general nature of the European Union

European Integration Since the 1920s Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re-examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union

Money and Stock Prices Richard V. L. Cooper, Rand Corporation, 1975 **RAOP**, 1975 Democracy in the European Union Liana Giorgi, Ingmar von Homeyer, Wayne Parsons, 2006-09-27 An invaluable exploration of the concern that transfers of power to European Union institutions are producing a worrying new form of democratic deficit While ongoing reforms of these institutions promise to render decision processes at European level more transparent and accountable these expert authors examine whether there is a European public sphere for citizens and their representatives to discuss deliberate and evaluate issues of public relevance They show how the process of European integration has given rise to a new object of study European society and why key questions concerning identity citizenship democracy government and institutions are being

raised anew and are major political concerns at European and Member State level With six case studies of EU policy making and representative institutions they analyze the intensity of participatory practices in four dimensions mobilization of societal actors public contestation and debate openness of decision making and responsiveness of policy makers This book will be of strong interest to students and researchers of the European Union European politics European studies as well as those concerned with more theoretical aspects of governance and the public sphere **Diagnoses of Our Time** John A. Hall, 1981

Der Heilige Stuhl und die Europäische Union Andreas M. Rauch, 1995 **Public Liability in EU Law** Pekka Aalto, 2011-11-01 Over the last two decades public law liability for breach of European Union law has been subject to remarkable developments This book examines the convergence between its two constituent systems the damages liability of the EU and that of its Member States for failing to comply with EU rules Member State liability based as it is on the Francovich case 1991 and Brasserie du P cheur and Factortame 1996 judgments of the European Court of Justice ECJ is well established But it is yet to be closely scrutinised by reference to the detailed rules on the liability of the European Union The focus of the book is on the two key legal criteria that are common to both systems namely the grant of rights to individuals by EU law and the notion of sufficiently serious breach of such rights The analysis concentrates on developments in the case law of the ECJ and the General Court since the Bergaderm judgment 2000 which consolidated the convergence of the two liability systems that was first indicated in Brasserie du P cheur and Factortame These two criteria are set side by side to evaluate the extent in real terms of the convergence of Member State and EU institutional damages liability and to determine the extent to which one has influenced the other This book shows that although full convergence between the two liability systems is not likely each stream of case law should look to the other more actively as this important element of EU remedial law develops Convergence in EU law public liability is supported by developments in adjacent areas most notably European tort law and European administrative law This study also illustrates how convergence in the EU liability systems to date has had spill over effects into national public liability law The Principle of Mutual Recognition in EU Law Christine Janssens, 2013-10 Examining the principle of mutual recognition in the EU legal order this volume asks whether the principle as developed in the internal market can and should be applied in judicial cooperation in criminal matters in the area of freedom security and justice Institutional and Policy Dynamics of Eu Migration Law Georgia Papagianni, 2006 The main objective of this book is to present the on going process of European integration via a comprehensive analysis of the institutional dynamics of and politics linked with the emerging migration law and policy of the European Union More specifically it presents the historical evolution the main institutional legislative and policy steps the position of and interactions among the different actors and the factors impeding the formation of a common policy at EU level On this basis a critical analysis is provided of the main institutional problems the current policy framework the overarching rationale as well as of the content and quality of the nascent EU migration law The book is divided into three parts The first two parts provide

a comprehensive study of the institutional framework and the substantive EC EU law respectively The third and final part provides a more general analysis of the policy making process Since the major achievements in the field of migration are recent the book focuses to a great extent on the post Amsterdam era However for reasons of coherence and in order to better evaluate recent developments a concise overview of the origins of this policy is provided Moreover special emphasis is placed on the Schengen acquis since its mark on European affairs has been and remains pronounced Overall the attempt has been to provide an account which is up to date with extensive historical references and combines both an academic and practical perspective to the legal and political issues involved The approach based on the above elements will contribute to a new understanding of the main aspects of EU migration law and its policy ramifications and will be of use to both academics and practitioners alike
