Principles and Practices of Telecasting Operations Harold E. Ennes, 1953 **Wireless Internet Of Things: Principles And Practice** Amoakoh Gyasi-agyei, 2020-04-22 This textbook is clearly a valuable resource for engineering students or anyone who wants to learn about wireless communication since it provides the technical fundamentals of the key theories and methods used for IoT communication. If you are interested in learning about the technical details of IoT and wireless communication then this very well written book loaded with the fundamentals for understanding this rapidly growing system of the future is well worth reading. IEEE Electrical Insulation Magazine This textbook metamorphosed from notes that the author has been using to teach at four universities in Australia and New Zealand. The book treats the physical principles and design of wireless Internet of Things IoT systems from engineering perspective. IoT enables communication between people between people and things and between things. The book highlights the wide scope of sensors used in IoT including RFIDs smart mobile phones home consumer devices autonomous cars utility meters car park meters robots satellites radars and wireless positioning systems. Three features render the book practically accessible. First each chapter is organised in sections each of which ends with a set of authentic review questions to motivate reflection. This is complemented by numerous worked examples in each section. Third the book introduces two popular industry software packages for hands on practice MATLAB and CelPlanner. With the growing popularity of softwarisation and cloudification possessing expertise in these packages makes one useful to the industry. Parts of this book are taught in undergraduate curriculum while the rest is taught in graduate courses. Both traditional and modern topics including C RAN network slicing NFV NB IoT and 5G use cases in IoT are covered. Instructor s resources are provided for free to instructors who adopt the book as textbook for a unit course subject paper.
