process      Social Work Approaches to Conflict Resolution B Harold Chetkow-Yanoov, 2013-10-11 Social Work Approaches to Conflict Resolution helps readers understand the nature and causes of conflict and offers suggestions for coping with conflict effectively. It is based on two assumptions that conflict is a basic part of the life of normal human beings, groups, organizations, communities, and nations, and that resolving conflict is part of the ongoing interventions of all social workers. A practical text for theory/practicum courses for MSW and doctoral students, it is filled with information also useful to therapists, group workers, community workers, administrators, scholars in the social sciences, practitioners in other helping professions, and trainers in the emerging field of conflict resolution itself. Deliberately linking conflict resolution and systems analysis, Social Work Approaches to Conflict Resolution tackles a number of related themes to help you see the connections between topics not normally presented together in social work literature. You'll see how unmet needs may cause conflict to evolve and escalate, and learn about the connections between strongly held feelings and the destructive relations that have developed between diverse ethnic peoples in many parts of our planet. Author Benjamin Chetkow-Yanoov draws on his own background of being a minority as well as his experience in Arab-Jewish reconciliation in Israel as he offers readers thorough explanations of a systems model for analyzing conflict, problem solving versus resolving conflict, how value clashes and victimization are some of the basic causes of conflict escalation, 9 professional roles required for resolving conflicts, the effectiveness of volunteers in conflict resolution, teaching conflict resolution skills to various audiences, trends in the evolution of voluntary conflict resolution efforts. You can apply much of what you learn in Social Work Approaches to Conflict Resolution not only to your professional life but also to your personal relationships and experiences. Also, since victimized people and groups are major contributors to the perpetuation and escalation of conflict, the book suggests 10 steps for helping victims free themselves from repeated conflict-generating behaviors.      Social Work Practice Benjamin Chetkow-Yanoov, 1997 Replete with numerous diagrams, charts, tables, and exercises, the second edition of Social Work Practice: A Systems Approach brings alive the systems model of social work practice. This user-friendly guide will allow you to integrate micro and macro modes of intervention, sensitize your practice, enhance your conflict resolution skills, and analyze system environment structures and currents. With its outline of a one-semester master's level course in systems analysis and its discussion of the 20th-century paradigm shift from reductionism to wholeness, Social Work Practice: A Systems Approach, Second Edition, will be a great asset to social workers both within and beyond the classroom.      **The Principles of Social Work** Molly R. **Social Work and the Environment** Michael Kim Zapf, 2009 This ground breaking new work provides a detailed and extensive comparison of how the physical environment has been conceptualized in social work and other professions and offers a new and attractive foundational metaphor for social work The author acknowledges the need for greater awareness and action regarding environmental impacts and the book promotes more comprehensive notions of responsibility identity and stewardship that lead to a dynamic metaphor of people as place as the foundation for relevant social work practice in the early 21st century Why is that a profession with a declared focus on person in environment has been so silent on the environmental crisis Mainstream social work theory has narrowed the understanding of environment to include merely the social environment but this approach is no longer sufficient for participation in multi disciplinary efforts to tackle urgent environmental issues Transformative notions of responsibility identity and stewardship have been developed on the fringes of our professional community rural remote social workers Aboriginal social workers and international and spiritual social workers They must now move to the core of the profession
