Gáldy,2019-01-22 Cabinets of prints and drawings are found in the earliest art collections of Early Modern Europe From the sixteenth century onwards some of them acquired such fame that the necessity for an ordered and scientific display meant that a dedicated keeper was occasionally employed to ensure that fellow enthusiasts as well as visiting diplomats courtiers and artists might have access to the print room Often collected and displayed together with drawings the prints formed a substantial part of princely collections which sometimes achieved astounding longevity as a specialised group of collectibles such as the Florentine Gabinetto Disegni e Stampe at the Uffizi GDSU Prints and drawings both bought and commissioned were collected by princes and by private amateurs Like the rest of their collections the prints and drawings were usually preserved and displayed as part of or near the owner s library in close proximity to scientific instruments cut gems or small sculptural works of art Both prints and drawings not only documented an encyclopaedic approach to the knowledge available at the time but also depicted parts of the collections in the form of a paper museum Prints and drawings also served as a guide to the collections They spread their fame and the renown of their owners across Europe and into new worlds of collecting both East and West This volume explores issues such as when how and why did cabinets of prints and drawings become a specialised part of princely and private collections How important were collections of prints and drawings for the self representation of a prince or connoisseur among specialists and social peers Is the presentation of a picture hanging in a gallery for example by Charles Eisen for the Royal Galleries at Dresden to be treated as documentary evidence Are there notable differences in the approach to collecting presentation and preservation of prints and drawings in

Transactions and Proceedings of the Conference of Librarians Held in London October, 1877 International library conference,1878 **The British Journal of Photography** ,1876 *Biometrics in Support of Military Operations* William C. Buhrow,2016-11-25 *Biometrics in Support of Military Operations* Lessons from the Battlefield examines and evaluates recent U S military experiences in Iraq and Afghanistan in the context of the use of biometrics and related technologies The book takes a comprehensive look at how biometrics has been used to support various military operations and suggests ways that its uses can be further developed It fills a void in understanding how to incorporate biometrics by providing a guide to develop and establish formal operational roles and procedures when applying the technology Written in an informal style that makes it accessible to people who are not necessarily operators or technicians of biometrics technologies this book bridges an existing gap to better educate leaders inside and outside of the U S military on the far reaching potential of biometrics in support of tactical operations It argues that the gap between those inside and outside the military is the result of failure to document lessons learned from battle experience as well as a lack of a combined vision among the Joint Forces to fully recognize and exploit the capabilities of biometrics for enhanced future success This book fills that gap Biometrics has great potential as an effective tool if properly developed and utilized The book concludes with a look at the future of emerging applications for the military but also considers a wider range of deployment of biometrics outside the military such as in governmental organizations including foreign diplomacy Biometrics can be applied to any operational area that requires accurate and rapid identification of unknown individuals in order to support its operations and protect personnel and resources *Biometrics in Support of Military Operations* is an important beginning point in an emerging field for gaining understanding and better mastery of biometrics
