Faulkner Baker,1957 **Republic of Labor** Diane P. Koenker,2018-07-05 The long decade from the October Revolution to 1930 was the beginning of a great experiment to create a socialist society Throughout these years socialist trade unions attempted to transform the Russian worker into a productive and enthusiastic participant in this new order How did the workers themselves react to these efforts To what extent were they and their culture transformed into the ideal forms proclaimed in the official ideology In **Republic of Labor**

Diane P Koenker illuminates the lived experience of Russia's printers workers who differed from their comrades because of their skill and higher wages but who shared the same challenges of economic hardship and dangerous conditions. Paying close attention to the links between work politics and the everyday, the author focuses on workers' efforts to define their place in socialist society. Gender issues are also emphasized and here we see the persistence of a masculinist working class culture counterposed to an official culture promoting gender equality. Through this engaging narrative, Koenker develops a highly original discourse about class in Soviet society that will interest all students of Russian history as well as those readers who wish to reinvigorate class as a historical and sociological tool of analysis.

Lithographer Joseph Clayton Martin, 1987. *The Swifts* Walker Rumble, 2003. In *The Swifts*, Walker Rumble, himself a printer and printing historian, follows the trail of these colorful compositors who became famous by winning typesetting races. Tellingly, at the same time that the most celebrated contests were taking place, technological and cultural forces were threatening the Swifts' way of life. First, women printers vied for shopfloor legitimacy; then, in the mid-1880s, typesetting machines such as Mergenthaler's Linotype arrived, replacing the artisans forever.

BOOK JACKET Monthly Labor Review, 1958-02. Publishes in depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

On the Job Craig Heron, Robert H. Storey, 1986. Every day millions of Canadians go out to work. They labour in factories, offices, restaurants, and retail stores, on ships and deep in mines. And every day millions of other Canadians, mostly women, begin work in their homes, performing the many tasks that ensure the well-being of their families and ultimately the reproduction of the paid labour force. Yet for all its undoubted importance, there has been remarkably little systematic research into the past and present dynamics of the world of work in Canada.

An assessment of the cultural mix of slave and slave holder **Against Labor** Rosemary Feurer, Chad Pearson, 2017-03-21
Against Labor highlights the tenacious efforts by employers to organize themselves as a class to contest labor. Ranging across a spectrum of understudied issues, essayists explore employer anti-labor strategies and offer incisive portraits of people and organizations that aggressively opposed unions. Other contributors examine the anti-labor movement against a backdrop of larger forces such as the intersection of race and ethnicity with anti-labor activity and anti-unionism in the context of neoliberalism. Timely and revealing, *Against Labor* deepens our understanding of management history and employer activism and their metamorphic effects on workplace and society. Contributors: Michael Dennis, Elizabeth Esch, Rosemary Feurer, Dolores E. Janiewski, Thomas A. Klug, Chad Pearson, Peter Rachleff, David Roediger, Howard Stanger, and Robert Woodrum.
