## **Private Foreign Investment And Economic Development:**

**Economic Development, Foreign Investment and the Law: Promoting Economic Development Through Private Sector Involvement, Foreign Investment and the Rule of Law** Robert Pritchard, 1996-03-07 Full Title Economic Development Foreign Investment and the Law Promoting Economic Development through Private Sector Involvement Foreign Investment and the Rule of Law This new publication was inspired by the desire to commemorate the 25th Anniversary of the founding of the Section on Business Law of the International Bar Association Practising lawyers from all over the world have contributed to this book with their knowledge and expertise The issues involved in the economic development process have been pursued with a practical approach Bearing in mind that the legal system of each country is unique that many countries are currently undergoing major programmes of legal reform and that most development issues are country specific this study does not make any claim to comprehensiveness or coherency of treatment If the book helps to accelerate reform efforts it will have achieved a useful purpose It is hoped that it will serve as a source of practical information for a wide range of people interested in the legal aspects of development and investment issues including the special issues associated with the use of foreign capital

**Multilateral Regulation of Investment** E. Nieuwenhuys, M. M. T. A. Brus, 2001-06-13 In the wake of the notable failure of the OECD draft Multilateral Agreement on Investment MAI it has become clear that any attempt to regulate investment at the global level must pay serious attention to the position of developing countries This remarkable collection of essays sheds penetrating light on this and other legal political and economic issues affecting the intense international debate on this important subject The result of a symposium sponsored in April 1999 by the E M Meijers Institute of Legal Studies at Leiden University Multilateral Regulation of Investment presents the incisive views of nine outstanding authorities both academics and practitioners in disciplines related to investment and development Among the essential criteria proposed for a successful global regulatory framework for investment are the following involvement at the national level of all sectors of the economy in drafting a national position involvement from the start of multilateral negotiations of both developing and developed countries transparency of negotiations balance between investment protection and the right to regulate and respect for core labour standards and human rights The authors agree in seeing the objectives of the multilateral regulation of investment both direct and portfolio as not only reducing risk but also enhancing trust between investors and states as host states must be sure that foreign investors will genuinely contribute to sustainable development and the well being of their populations
