**Private Health Insurance** United States Accounting Office, 2018-02-13 HEHS 99 100 Private Health Insurance Progress and Challenges in Implementing 1996 Federal Standards *American Federalism in Practice* Michael Doonan, 2013-08-26 American Federalism in Practice is an original and important contribution to our understanding of contemporary health policy. It also illustrates how contentious public policy is debated, formulated and implemented in today's overheated political environment. Health care reform is perhaps the most divisive public policy issue facing the United States today. Michael Doonan provides a unique perspective on health policy in explaining how intergovernmental relations shape public policy. He tracks federal-state relations through the creation, formulation and implementation of three of the most important health policy initiatives since the Great Society: the State Children's Health Insurance Program (CHIP) and the Health Insurance Portability and Accountability Act (HIPAA), both passed by the U.S. Congress, and the Massachusetts health care reform program as it was developed and implemented under federal government waiver authority. He applies lessons learned from these cases to implementation of the Affordable Care Act. Health policymaking is entangled in a complex web of shared, overlapping and/or competing power relationships among different levels of government; the author notes. Understanding federal-state interactions, the ways in which they vary and the reasons for such variation is essential to grasping the ultimate impact of federalism on programs and policy. Doonan reveals how federalism can shift as the sausage of public policy is made while providing a new framework for comprehending one of the most polarizing debates of our time. **Private Health Insurance** U.S. Government Accountability Office (G.U. S. Government Accountability Office), 2013-06 The U.S. Government Accountability Office (GAO) is an independent agency that works for Congress. The GAO watches over Congress and investigates how the federal government spends taxpayers' dollars. The Comptroller General of the United States is the leader of the GAO and is appointed to a 15-year term by the U.S. President. The GAO wants to support Congress while at the same time doing right by the citizens of the United States. They audit, investigate, perform analyses, issue legal decisions and report anything that the government is doing. This is one of their reports. **Implementation of HIPAA** United States. General Accounting Office, 2000 **Private Health Insurance** William J. Scanlon, 2000-06 By setting minimum federal standards for certain aspects of private health insurance, the Health Insurance Portability and Accountability Act (HIPAA) has the potential to reduce the price of coverage for certain individuals losing group coverage, the extent of consumer understanding of HIPAA as well as the law's protections, federal efforts undertaken to ensure HIPAA compliance.
