## **Sherry Mitchell Beazley Classic Wine Library:**

**Sherry** Julian Jeffs, 2004-05-13 The fifth edition of this benchmark book recounts the turbulent history of the sherry region. It explains the various stages of sherry production and details the old family firms and new boutique bodegas.

Hospitality, 2005      **American Book Publishing Record**, 2003      *Essential Winetasting* Michael

Schuster, 2017-04-06 An authoritative and inspirational winetasting course from one of the world's leading wine educators. Explains the mechanics of taste and tasting better than any book I've seen. Richard Ehrlich Independent on Sunday. Learn how to taste wine with one of the world's leading wine educators. This book offers a particularly clear and precise means of teaching yourself how to taste and how to get more out of your wine whatever your level. All the major grape varieties are explored and their key characteristics in different regions. Ten practical tastings then cover core tasting techniques. Do you want to explore Dry Whites for example looking at Old World versus New World Sauvignon Blancs. Or investigate terroir in a range of Bordeaux wines. Additional information on subjects such as Wines and Age and the impact of climate change complete the picture making this book a powerful tool for understanding and appreciating wine at all levels.      The British National Bibliography Arthur James Wells, 2005      *Decanter*, 2004-10      **The Taste of Wine** Pamela Vandyke Price, 1975. The connoisseur of wine relies on his sense of taste. For centuries connoisseurs of wine have refined the art of appraising, selecting and appreciating wines. Labels, vintages, regions, all these are considered but the one central criterion of the wine professional upon which all his other judgments are based is: What does it taste like? How sharp is it? How sweet? How dry? What is it like in the glass? *The Taste of Wine* concentrates on the one element that will give you a practical knowledge of wine. It examines how a wine tastes, how the taste varies, how to distinguish the different types, how to classify them, how to serve them and how to plan them with food. Written with humor and expertise and without jargon by Pamela Vandyke Price, one of the world's greatest wine authorities, it is the first book to reveal the standards of the professional wine taster in terms that anyone can understand and use. Whether considering still wines, sparkling wines, red, white, pink or fortified, you'll be able to select and enjoy them in a way that will meet both your taste and your budget. In addition, *The Taste of Wine* offers a complete compendium of basic wine information to enhance your background knowledge. Embellished with 350 illustrations, 32 pages in full color, it gives you a history of wine and wine making, the varieties of grapes, the techniques of growing them, of making different wines and selling, shipping and bottling them, a general introduction to selecting, opening, serving and storing wines, a detailed survey of the wines of the world, a glossary and index and a foreword by Baron Elie de Rothschild of Chateau Lafite.      **Library Journal**, 1997      *Forthcoming Books* Rose Arny, 1996-06      **The Wines of Spain** Julian Jeffs, 2006-05-18 The transformation of the Spanish wine industry over the last 20 years has been astonishing. From a state of very considerable decay, it has re-invented itself with great vigour and style. Four decades ago, such reputation as the wines of Spain had rested on the declining quality of Sherry and the occasional majestic Rioja towering above the surrounding sea of

mediocre oxidised table wines How things have changed exclaims Julian Jeffs in the introduction to his valuable *The Wines of Spain* the latest addition to Faber and Faber's series of wine books Over the course of two years Jeffs put in a great deal of intensive research in Spain travelling the length and breadth of the country visiting growers and tasting their wines The effort has paid off in a wealth of engrossing detail The volume is organised into sections dealing with the main provinces or geographical regions Aragon Catalunya Andalucia and so on then within those by the individual Denominacion de Origen DO Within each DO the leading or most interesting bodegas are profiled allowing Jeffs to build up a cumulative portrait of the regional characters Especially evocative are the portions of the book dealing with the ancient and distinguished Sherry houses in Andalucia many of them of course founded in the 18th or 19th centuries by British or Irish merchants The account of the great Bodegas Vega Sicilia in Castilla is emblematic of the progress of the entire Spanish wine industry Producing some of the world's finest wine up to the 1920s it fell into poor practices and the quality and reliability of the wine suffered badly Under the modernising current owners the wine has regained its former reputation According to Julian Jeffs Vega Sicilia is on a Wagnerian scale with all that master's subtlety and complexity Robin Davidson This text refers to an out of print or unavailable edition of this title
