array of challenging problems In just 580 lines the newborn god invents the lyre and sings a hymn to himself travels from Cyllene to Pieria to steal Apollo's cattle organizes a feast at the river Alpheios where he serves the meat of two of the stolen animals cunningly defends his innocence and is finally reconciled to Apollo to whom he gives the lyre in exchange for the cattle This book provides the first detailed commentary devoted specifically to this unusual poem since Radermacher's 1931 edition The commentary pays special attention to linguistic philological and interpretive matters It is preceded by a detailed introduction that addresses the Hymn's ideas on poetry and music the poem's humour the Hymn's relation to other archaic hexameter literature both in thematic and technical aspects the poem's reception in later literature its structure the issue of its date and place of composition and the question of its transmission The critical text based on F C Ssola's edition is equipped with an apparatus of formulaic parallels in archaic hexameter poetry as well as possible verbal echoes in later literature

The Oxford Handbook of Modern Indian Literatures Ulka Anjaria, Anjali Nerlekar, 2024 The Oxford Handbook of Modern Indian Literatures is a compilation of scholarship on Indian literature from the 19th century to the present in a range of Indian languages On one hand because of reasons associated with national academic structures publishing resources and global visibility English writing gets privileged over all the other linguistic traditions in the scholarship on Indian literatures On the other hand within the scholarship on regional language literary productions in Hindi Marathi Bengali etc the critical works and the surveys focus only on that particular language and therefore frequently suffer from a lack of comparative breadth and or global access Both reflect the paradigm of monolingualism within which much literary scholarship on Indian literature takes place This handbook instead focuses on the multilingual pathways through which modern Indian literature gets constituted It features cutting edge literary criticism from at least seventeen languages and on traditional literary genres as well as more recent ones like graphic novels It shows the deep connections and collaborations across genres languages nations and regions that produce a literature of diverse contact zones generating innovations on form aesthetics and technique Foregrounding themes such as modernity and modernism gender caste diaspora and political resistance the book collects an array of perspectives on this vast topic
