Maria Moura:

Warrior Women and Trans Warriors Carolina Castellanos Gonella, 2024-11-15 Latin American literature has depicted warrior woman and trans warrior characters in armed conflicts but literary critics have not paid much attention to their empowerment. They also have critiqued these characters using traditional gender binary concepts or have viewed their access to power as evil or abnormal. *Warrior Women and Trans Warriors Performing Masculinities in Twentieth Century Latin American Literature* introduces a new perspective by analyzing how one trans warrior and two warrior women from three canonical novels contest traditional codes of behavior and appearance. It examines Pintada in the Mexican novel *Los de abajo* 1915, Doña Bárbara in the Venezuelan novel *Doña Bárbara* 1929 and Diadorim in the Brazilian novel *Grande sertão de veredas* 1956. *Warrior Women and Trans Warriors* focuses on how these three characters challenge conventional norms and empower themselves by giving orders, using weapons, fighting, competing with other characters, exposing traditional gender ideologies and transgressing sartorial gender rules. Drawing on trans theory, intersectionality, gender performance theory and masculinities studies, this book argues that performing masculinities allow these characters to occupy the place of the most desired position of their contexts.

Besides presenting and illuminating the traditional canon, the encyclopedia also stresses the contribution made by women authors and by contemporary writers.

Outstanding Reference Source Outstanding Reference Book Redefining Latin American Historical Fiction H. Weldt-Basson, 2013-06-05 Current scholarship on Latin American historical fiction has failed to take feminism and postcolonialism into account. This study uses these important contemporary discourses as a starting point for a new definition of the Latin American historical novel that includes national identity, magical realism, historical intertextuality and symbolism.

Workers Before the Court Teixeira da Silva Fernando, 2019-03-18 Law and justice are studied in this book from the perspective of social and global history The main focus of Workers Before the Tribunal is to overcome traditional binary oppositions between corporatist and contratualist models of labor relations the former representing a view in which the working class would have more autonomy in struggling for better labor conditions the latter meaning the protagonism of the State in promoting labor rights Teixeira da Silva presents three main arguments First he shows that the Brazilian labor justice system created during the Getúlio Vargas dictatorship 1930-1945 although inspired by Mussolini's legal order in Italy is very different from the Fascist Magistratura del Lavoro Second in his comparative analysis with other national cases such as the United States France Germany and Australia the author argues that there was a large circulation of ideas and practices resulting in a more complex dynamic of appropriation of international ideas on labor rights and institutions in Brazil Third Teixeira da Silva demonstrates that litigation in labor courts was one strategy of the working class movement in Brazil together with strikes and other means of confrontation Therefore he questions historiographical and political approaches that see labor justice as a weak substitute for class action The jurisdictionalization of labor relations became a constitutive element in the making of the Brazilian working class The book is anchored in the research of hundreds of labor litigation cases during the dramatic months preceding the 1964 civil military coup that inaugurated a quarter century of dictatorial rule in Brazil
