Matsuri Japanese Festival Arts:

Matsuri! Japanese Festival Arts Gloria Gonick, 2002 The spectacular Japanese community festivals known as matsuri are centuries old Even today in a society driven by technological advancement these annual rites continue to function as a mechanism for purification and renewal and also to ensure all aspects of communal productivity The pageantry of these events their extraordinary dress performance and Shinto Buddhist ritual enactment brings communities together in an act of worship that is as well an extravagant artistic celebration Dominated by the gorgeous textiles worn by troupes of participants matsuri also boldly incorporate decorated banners exquisitely dressed festival wagons dramatic masks and elaborate portable shrines The historical importance of matsuri within the cycle of annual religious events in Japan is also reflected in the representation of these festivals in several pictorial forms from lavish screen paintings to elegant woodblock prints This volume identifies and describes the exuberant textiles and costumes of matsuri and considers their significance within their cultural context Many of the examples illustrated date from the Meiji period 1868 1912 the last time when handwork was produced by individual artisans for their own use or that of their neighbors The unique focus on festival arts in this book allows us to identify the special aesthetics that differentiate the textiles worn and used on Japan's holy days At matsuri a cascade of beautifully crafted garments in vibrant hues meets the eyes foregrounded distinctly against the hushed simplicity of the Shinto shrine It is an incredibly vital spectacle of human artistry at the service of a sacred occasion Matsuri documents the use of textiles in more than 25 different festivals scattered over the length and breadth of Japan The book interweaves these textiles with the other arts that constitute matsuri as well as with their symbolic meanings and the history of textile making in Japan Gorgeous photographs bring the festivals to life Gloria Granz Gonick is a student of Japanese textiles and culture Other contributors include Yo ichiro Hakomori adjunct assistant professor of architecture at the University of Southern California Hiroyuki Nagahara assistant professor of Japanese at the University of Hawai'i at Manoa and Herbert Plutschow professor of East Asian languages and cultures at UCLA and author of *Matsuri The Festivals of Japan* among other books

Cultural Heritage and Tourism in Japan Takamitsu Jimura, 2021-08-15 This book offers a comprehensive understanding of cultural heritage in Japan and its relationship with both domestic and international tourism Japan has witnessed an increase in tourism with rising visitor numbers to both established destinations and lesser known sites This has generated greater attention towards various aspects of Japanese culture heritage and society This book explores these diverse aspects of everyday life in Japan and their interconnections with tourism It begins with a conceptual framework of key theories related to heritage and tourism serving as a useful apparatus for further discussions in the following chapters Each chapter studies a specific aspect of Japan's cultural heritage from the history of Japan the development of war sites such as Hiroshima and Nagasaki to tourist destinations indigenous communities and their places of residence festivals such as matsuri to popular culture and media Each chapter discusses a certain type of cultural heritage first in a global context

and then examines it in a Japanese context aiming to demonstrate the relation between these two different contexts In each chapter furthermore how a particular kind of Japan s cultural heritage is utilised as tourism resources and how it is perceived and consumed by international and domestic tourists are discussed Finally the book revisits the conceptual framework to suggest future directions for cultural heritage and tourism in Japan Written in an informative and accessible style this book will be of interest to scholars students and practitioners in the fields of tourism cultural studies and heritage studies Art and Architecture of the World's Religions Leslie D. Historical Dictionary of Shinto Stuart D.B. Picken, 2010-12-28 One of Japan's major

religions Shinto has no doctrines and there are no sacred texts from which religious authority can be derived It does not have an identifiable historical founder and it has survived the vicissitudes of history through rituals and symbols rather than through continuity of doctrine Shinto is primarily a religion of nature centered on the cultivation of rice the basis of a culture with which the western world is not familiar in terms of either its annual cycle or the kind of lifestyle it generates The roots of the Shinto tradition probably precede this and reflect an awareness of the natural order The oldest shrines came to be located in places that inspired awe and wonder in their observers such as the great Fall of Nachi in Kumano or in mountains that conveyed a sense of power The expanded second edition of the Historical Dictionary of Shinto relates the history of Shinto through a chronology an introductory essay an extensive bibliography and over 800 cross referenced dictionary entries on Shinto concepts significant figures places activities and periods Scholars and students will find the overviews and sources for further research provided by this book to be enormously helpful

Presence Through Sound Keith Howard, Catherine Ingram, 2020-07-23 Presence Through Sound narrates and analyses through a range of case studies on selected musics of China Japan Korea Taiwan and Tibet some of the many ways in which music and place intersect and are interwoven with meaning in East Asia It explores how place is significant to the many contexts in which music is made and experienced especially in contemporary forms of longstanding traditions but also in other landscapes such as popular music and in the design of performance spaces It shows how music creates and challenges borders giving significance to geographical and cartographic spaces at local national and international levels and illustrates how music is used to interpret relationships with ecology and environment spirituality and community and state and nation The volume brings together scholars from Australia China Denmark Japan Korea Taiwan and the UK each of whom explores a specific genre or topic in depth Each nuanced account finds distinct and at times different aspects to be significant but in demonstrating the ability of music to mediate the construction of place and by showing how those who create and consume music use it to inhabit the intimate and to project themselves out into their surroundings each points to interconnections across the region and beyond with respect to perception conception expression and interpretation In Presence Through Sound ethnomusicology meets anthropology literature linguistics area studies and particularly pertinent to East Asia in the twenty first century local musicologies The volume serves a broad academic readership and provides an essential resource for all those interested in East Asia
