Handbook of Research on the Regulation of the Modern Global Migration and Economic Crisis Alaverdov, Emilia, Bari, Muhammad Waseem, 2023-02-17 Migration is not a new phenomenon it has a centuries long history since the world's population has been characterized by the desire to relocate not only from one country to another but from one continent to another as well. However, there is a significant difference between the migrations of the past and the current one. Today's migration is complicated by the strong emotional reaction and hostile attitude from society. The study of migration processes needs interdisciplinary approaches. The Handbook of Research on the Regulation of the Modern Global Migration and Economic Crisis presents emerging research and case studies on global migration in the modern world. Through interdisciplinary approaches, it further showcases the current challenges and approaches in regulation. Covering topics such as forced migration, human trafficking, and national identity, this major reference work is an excellent resource for migration specialists, government officials, politicians, sociologists, economists, students, and educators of higher education, researchers, and academicians.

In legal terms, sport is part of the entertainment and media industries, which are subject to rapid change. This work brings together experts in many fields to analyze these changes and to discuss the implications of issues such as the BSkyB Manchester United case, civil and criminal actions on the playing field, the Bosman ruling, drugs in sport, the legality of boxing, and the validity of decisions made by governing bodies.
