Ultimate Guide to Muscle Cars Jim Glastonbury,2010-04-15 A muscle car is not a piece of Italian exotica a Ferrari or a Lamborghini cars which are just too complex and too specialized nor is it a German Porsche which is too efficient and too clever by half nor yet a classic British sports car a Morgan TVR or Jaguar which could never be regarded as fitting the bill Sports cars by and large are not muscle cars with two notable exceptions the legendary AC Cobra of the 1960s and the Dodge Viper of the 1990s These followed the muscle car creed of back to basics raw power In effect muscle cars always were and always will be a quintessentially North American phenomenon The basic concept is something like this take a mid sized American sedan nothing complex upmarket or fancy in fact the son of car one would use to collect the groceries in any American town on any day of the week add the biggest raunchiest V8 that it is possible to squeeze under the hood and there it is The muscle car concept really is as simple as that
