Pintura Sobre Tela:

La pintura sobre tela Ana Villarquide Jevenois, 2004

La pintura sobre tela II Ana Villarrquide Jevenois, 2016-12-12

La pintura sobre lienzo constituye una de las más delicadas estructuras artísticas integrada por elementos heterogéneos y con frecuencia de comportamiento contrapuesto. Toda obra por buena que sea la calidad técnica que posea está siempre sometida a cambios químicos y físicos inevitables que dan lugar a lo que conocemos como envejecimiento. El presente trabajo analiza con rigor y exhaustividad todos los agentes causantes de las alteraciones en la pintura y sus consecuencias, así como los sistemas de conservación y restauración que ralentizan el proceso de degradación de las obras o que procuran una intervención directa cuando el deterioro es grave y demanda un control urgente, compilando al mismo tiempo la numerosa bibliografía aparecida en distintas publicaciones especializadas.

Artes & Oficios. Restauración de pintura Eva Pascual, Mireia

Patiño, 2022-08-17 Este libro trata de los procesos de restauración de pintura sobre tela expuestos de forma muy ilustrada y didáctica adecuada para todas aquellas personas interesadas en conocer esta especialidad técnica del arte. En sus páginas se enseñan los criterios y conocimientos de conservación y restauración actuales, los materiales y herramientas que se emplean, así como los distintos procesos que hay que abordar al entrar un cuadro en el taller, tales como la documentación, el análisis de la obra y de sus patologías y las técnicas adecuadas para reparar los daños que aquí han causado en la pintura. En el último capítulo, como ejemplos prácticos, se incluyen 5 casos de restauración paso a paso de cuadros con problemas distintos.

Evaluación de Los Aprendizajes Mirta Bonvecchio De Aruani, 2006-04 Desde la perspectiva de las autoras, el principal valor que se articula con los procesos evaluativos es el de la justicia y equidad. La realidad ofrece múltiples ejemplos de alumnos aprobados y no aprobados arbitrariamente y/o sin los fundamentos suficientes. Esto desvirtúa el sentimiento de honestidad y justicia que los docentes deben desarrollar. El uso del sistema de calificación como instrumento de poder provoca sentimientos de impotencia y reales frustraciones. Este manual es un documento de apoyo didáctico que ofrece al docente recursos posibles a partir de los cuales podrá tomar decisiones que a su vez le permitan poner en práctica un proceso evaluativo con mayor rigor científico que el que venía aplicando. Ofrece las cuestiones que deberían estar presentes para ejercer la función evaluadora e incluye la descripción de todas las fases del proceso evaluador. Se propone como meta el abordaje integral de la auto y coevaluación de los alumnos.

Evangelization and Cultural Conflict in Colonial Mexico Robert H. Jackson, 2014-05-02 In a study published in the mid twentieth century French historian Robert Ricard postulated that the evangelization and conversion of the native populations of Mexico had been rapid and relatively easy However different forms of evidence show that the so called spiritual conquest was anything but easy or rapid and in fact natives continued to practice their traditional beliefs alongside

Catholicism Within several decades of initiating the so called spiritual conquest the campaign to evangelize and convert the native populations the missionaries faced growing evidence of idolatry or the persistence of traditional religious practices and apostasy straying from Church teachings The evidence includes written documents such as inquisition investigations that resulted for example in the execution of don Carlos the native ruler of Tezcoco on December 1 1539 or that uncovered evidence of systematic organized resistance to Dominican missionaries in the Sierra Mixteca of Oaxaca Other forms of evidence include pre Hispanic religious iconography incorporated into what ostensibly were Christian murals and pre Hispanic stones embedded in the churches and convents the missionaries had built One example of this was the stone with the face of Tl loc at the rear of the Franciscan church Santiago Tlatelolco in Distrito Federal During the course of some three centuries missionaries from different Catholic religious orders attempted to convert the native populations of colonial Mexico with mixed results Native groups throughout colonial Mexico resisted the imposition of the new religion in overt and covert forms and incorporated Catholicism into their worldview on their own terms Native cultural and religious traditions were more flexible than the Iberian Catholic norms introduced by the missionaries The so called spiritual conquest a term coined by Ricard evolved as a cultural war set against the backdrop of the imposition of a foreign colonial regime The 11 essays in this volume examine the efforts to evangelize the native populations of Mexico the approaches taken by the missionaries and native responses The contributions investigate the interplay between natives and missionaries in central Mexico and on the southern and northern frontiers of New Spain and among sedentary and non sedentary natives In the end many natives found little in the new faith to attract them and resisted the imposition of new religious norms and way of life **Complicacion de todas las prácticas de la pintura, desde los antiguos Griegos hasta nuetros dias** Mariano de La Roca y Delgado,1880
