Principles of Macroeconomics + DiscoverEcon Code Card

Robert H. Frank,Ben S. Bernanke, Frank Robert,2006 Avoiding excessive reliance on formal mathematical derivations Frank and Bernanke presents concepts intuitively through examples drawn from familiar contexts The authors introduce a well articulated short list of core principles and reinforce them by illustrating and applying each in numerous contexts Students are periodically asked to apply these principles to answer related questions and exercises The text also encourages students to become Economic Naturalists people who employ basic economic principles to understand and explain what they observe in the world around them An economic naturalist understands for example that infant safety seats are required in cars but not in airplanes because the marginal cost of space to accommodate these seats is typically zero in cars but often hundreds of dollars in airplanes Such examples engage student interest while teaching them to see each feature of their economic landscape as the reflection of an implicit or explicit cost benefit calculation

Principles of Macro-economics Robert H.

Frank,Ben Bernanke,2004 In recent years innovative texts in mathematics science foreign languages and other fields have achieved dramatic pedagogical gains by abandoning the traditional encyclopedic approach in favor of attempting to teach a short list of core principles in depth Two well respected writers and researchers Bob Frank and Ben Bernanke have shown that the less is more approach affords similar gains in introductory economics Although recent editions of a few other texts have paid lip service to this new approach Frank Bernanke is by far the best thought out and best executed principles text in this mold Avoiding excessive reliance on formal mathematical derivations it presents concepts intuitively through examples drawn from familiar contexts The authors introduce a well articulated short list of core principles and reinforcing them by illustrating and applying each in numerous contexts Students are periodically asked to apply these principles to answer related questions exercises and problems The text also encourages students to become Economic Naturalists people who

employ basic economic principles to understand and explain what they observe in the world around them An economic naturalist understands for example that infant safety seats are required in cars but not in airplanes because the marginal cost of space to accommodate these seats is typically zero in cars but often hundreds of dollars in airplanes Such examples engage student interest while teaching them to see each feature of their economic landscape as the reflection of an implicit or explicit cost benefit calculation The Second Edition of Frank Bernanke follows the successful First Edition with several pedagogical improvements Based on reviewer feedback this edition offers 1 even more streamlined coverage of the cost benefit approach in the introductory chapter 2 exercises that are more closely tied to the examples 3 expanded narrative explanations of important principles making them more accessible to average students and 4 expanded coverage of several key topics The result is a revision that is motivating to students an effective text for teaching and an exciting first course in Economics

Macroeconomics with DiscoverEcon Code Card David C. Colander, 2003-07 Written in an informal colloquial style this student friendly principles of economics textbook does not sacrifice intellectual depth in its quest for accessibility The author's primary concern is to instill economic sensibility in the student Colander emphasizes the intellectual and historical context to which the economic models are applied

Principles in Macroeconomics Robert H. Frank, Ben S. Bernanke, 2001-06-01 This brand new principles of macroeconomics text is the most exciting new entry in years Written by two well known and well respected economists Bob Frank and Ben Bernanke the text seeks to teach introductory students the core economic concepts the essence of economics without overwhelming them with details Principles of Macroeconomics presents the material in an intuitive way that avoids excessive math The authors introduce a well articulated short list of core principles reinforce them by illustrating and applying each principle in several contexts and then ask students to work exercises to see what they've learned The text seeks to create Economic Naturalists that is after reading the text students will ask and answer questions about their economic environment For example students will see Braille dots on drive up ATMs and ask why they're there Peppered with such thought provoking examples Frank and Bernanke not only engage students but teach them to see each feature of their economic landscape as the reflection of an implicit or explicit cost benefit calculation
