Principles Of Systematic Psychology:

Principles of Systematic Psychology Coleman R. Griffith, 1946 *Principles of Psychology* Fred Simmons Keller, William N. Schoenfeld, 1959 *Principles of Systematic Psychology* Coleman Roberts Griffith, 1943 **The Principles of Sociology** Franklin Henry Giddings, 1896 Portraits of Pioneers in Psychology Donald A. Dewsbury, Ludy T. Benjamin, Jr., Michael Wertheimer, 2014-06-03 This sixth book in the Portraits of Pioneers in Psychology Series preserves the diversity that has characterized earlier volumes as it brings to life psychologists who have made substantial contributions to the field of the history of psychology These chapters illustrate the pioneering endeavors of such significant figures and are written in a lively engaging style by authors who themselves have achieved a reputation as excellent scholars in the history of psychology Several of the chapters are based on the author's personal acquaintance with a pioneer and new previously unavailable information about these luminaries is presented in this volume Each of these volumes provides glimpses into the personal and scholarly lives of 20 giants in the history of psychology Prominent scholars provide chapters on a pioneer who made important contributions in their own area of expertise A special section in each volume provides portraits of the editors and authors containing interesting information about the relationship between the pioneers and the psychologists who describe them Utilizing an informal personal sometimes humorous style of writing the books will appeal to students and instructors interested in the history of psychology Each of the six volumes in this series contains different profiles thereby bringing more than 120 of the pioneers in psychology more vividly to life Principles of Revival Charles G. Finney, 1987-08-01 Principles of Revival is an edited version of Finney's first book of published sermons Sermons on Important Subjects It is distinctively different in that it focuses on the psychology of revival and conversion versus the method oriented approach of the other Finney volumes on revival Newly edited by L G Parkhurst the material cannot be found in print anywhere else except for a few readings that relate to Principles of Victory Major themes include The necessity of preaching to the conscience The inevitability of opposition to the gospel The operation of the sinner's mind Motivating the sinner to repentance The relationship in conversion between personal initiation and the work of the Spirit The Later Works of John Dewey, Volume 16, 1925 - 1953 John Dewey, 2008 Typescripts essays and an authoritative edition of Knowing and the Known Dewey's collaborative work with Arthur F Bentley In an illuminating Introduction T Z Lavine defines the collaboration's three goals the construction of a new language for behavioral inquiry a critique of formal logicians in defense of Dewey's Logic and a critique of logical positivism In Dewey's words Largely due to Bentley I've finally got the nerve inside of me to do what I should have done years ago What Is It to Be a Linguistic Sign or Name and Values Valuations and Social Facts both written in 1945 are published here for the first time **The Later Works, 1925-1953** John Dewey, 1981 John Dewey's Experience and Nature has been considered the fullest expression of his mature philosophy since its eagerly awaited publication in 1925 Irwin Edman wrote at that time that with monumental care detail and completeness Professor Dewey has in this volume

revealed the metaphysical heart that beats its unvarying alert tempo through all his writings whatever their explicit themes In his introduction to this volume Sidney Hook points out that Dewey s *Experience and Nature* is both the most suggestive and most difficult of his writings The meticulously edited text published here as the first volume in the series *The Later Works of John Dewey 1925-1953* spans that entire period in Dewey s thought by including two important and previously unpublished documents from the book s history Dewey s unfinished new introduction written between 1947 and 1949 edited by the late Joseph Ratner and Dewey s unedited final draft of that introduction written the year before his death In the intervening years Dewey realized the impossibility of making his use of the word *experience* understood He wrote in his 1951 draft for a new introduction Were I to write or rewrite *Experience and Nature* today I would entitle the book *Culture and Nature* and the treatment of specific subject matters would be correspondingly modified I would abandon the term *experience* because of my growing realization that the historical obstacles which prevented understanding of my use of *experience* are for all practical purposes insurmountable I would substitute the term *culture* because with its meanings as now firmly established it can fully and freely carry my philosophy of experience
