Justice as Sanctuary Herman Bianchi, 2010-10-01 While many in the criminal justice system would agree that the present punitive system of crime control is ineffective unjust and malevolent there is little enthusiasm for talk about reforming the system or for a reexamination of its fundamental premises In *Justice as Sanctuary* noted Dutch criminologist Herman Bianchi details a new approach to crime control one that promises to reanimate debate and initiate real change He explores the cultural and religious roots of the current punitive system in search of new perspectives that can help create a more just and effective one In the ancient Hebrew notion of *tsedeka* justice or righteousness Bianchi finds the inspiration for a new model of crime control based on conflict resolution rather than punishment Because so many feel alienated from the criminal justice system he argues for new procedures that will enable people to experience law as supportive of their lives and their social interactions To complement the current punitive system Bianchi proposes a system that provides victims and offenders a chance to resolve their conflicts and offers them the opportunity to reach non punitive systems By incorporating the concept of liability Bianchi's model returns to offenders the responsibility for their acts while providing an active legal role for the victims of crime It adapts structures and models from civil and labor law for conflict resolution of nonviolent crimes and in the case of violent crimes

and in the case of violent crimes proposes the creation of special sanctuaries that would protect the public while making it possible to effect true justice Startling in its implications Bianchi's system is not a utopian dream but a carefully considered set of proposals that could be acted upon today *Criminal Justice* Philip P. Purpura, 1996 *Criminal Justice An Introduction* is a complete introductory text for the most basic and widely studied course in this subject area Each chapter begins with behavioral objectives and a list of key terms A variety of strategies are designed into the text to hold the attention of reader key terms in bold lettering side margin notes containing interesting facts and challenging questions boxed justice events and international perspectives and over 80 photographs tables and figures Each chapter ends with applications that enable the student to apply the material to real life situations This text competes with larger books by offering a complete but succinct and less expensive introduction to criminal justice which will be more manageable for community colleges and colleges with shorter terms The instructor's manual will assist educators with special projects and test questions and answers The accompanying disk challenges students with interactive exercises An excellent entry level textbook for undergraduate criminal justice students Written by an instructor of criminal justice and security for over 20 years Includes an instructor's manual and a disk with interactive exercises for students **American Prisons and Jails: Supplemental report - adult pre-release facilities** Joan Mullen, 1980 Catalog of Copyright Entries.
