the history and theory of the essay In so doing it surveys the essay from its origins to its relation to contemporary cultural forms from the novel to poetry film to music and from political articles to intimate lyrical expressions The book examines work by writers such as Theodor W Adorno Kwame Anthony Appiah Francis Bacon James Baldwin Roland Barthes Maurice Blanchot Ta Nehisi Coates Annie Dillard Brian Dillon Jean Genet William Hazlitt Samuel Johnson Karl Ove Knaussgaard Ben Lerner Audre Lorde Oscar Wilde Michel de Montaigne Zadie Smith Rebecca Solnit Wallace Stevens Eliot Weinberger and Virginia Woolf

**Antiquities and Other Stories** Cynthia Ozick, 2022-03-01 From one of our most preeminent writers a tale that captures the shifting meanings of the past and how our experience colors those meanings now alongside four previously uncollected stories In Antiquities Lloyd Wilkinson Petrie one of the seven elderly trustees of the now defunct for thirty four years Temple Academy for Boys is preparing a memoir of his days at the school intertwined with the troubling distractions of present events As he navigates with faltering recall between the subtle anti-Semitism that pervaded the school's ethos and his fascination with his own family's heritage in particular his illustrious cousin the renowned archaeologist Sir William Matthew Flinders Petrie he reconstructs the passions of a childhood encounter with the oddly named Ben Zion Elefantin a mystifying older pupil who claims descent from Egypt's Elephantine Island Included alongside this wondrous tale touched by unsettling irony and with the elusive flavor of a Kafka parable are four additional stories in Cynthia Ozick's brilliant distinctive voice weaving myth and mania history and illusion The Coast of New Zealand The Bloodline of the Alkanas Sin and A Hebrew Sibyl

**Communities of Memory** William James Booth, 2018-07-05 Memory has fueled merciless violent strife and it has been at the core of reconciliation and reconstruction It has been used to justify great crimes and yet it is central to the pursuit of justice In these and more everyday ways we live surrounded by memory individual and social in our habits our names the places where we live street names libraries archives and our citizenship institutions and laws Still we wonder what to make of memory and its gifts though sometimes we are hardly even certain that they are gifts Of the many chambers in this vast palace I mean to ask particularly after the place of memory in politics in the identity of political communities and in their practices of doing justice from the Preface W James Booth seeks to understand the place of memory in the identity ethics and practices of justice of political communities Identity is he believes a particular kind of continuity across time one central to the possibility of agency and responsibility and memory plays a central role in grounding that continuity Memory identity takes two forms a habitlike form the deep presence of the past that is part of a life led in common and a more fragile vulnerable form in which memory struggles to preserve identity through time notably in bearing witness a form of memory work deeply bound up with the identity of political communities Booth argues that memory holds a defining place in determining how justice is administered Memory is tied to the very possibility of an ethical community one responsible for its own past able to make commitments for the future and driven to seek justice Underneath and motivating the politics of memory understood as contests over the writing of history over memorials museums and canons he writes there lies an intertwining of memory identity and justice

**Communities of Memory** both argues for and maps out that intertwining

**On Essays** Thomas Karshan, Kathryn Murphy, 2020-09-04 Montaigne called it a ramble Chesterton the joke of literature and Hume an ambassador between the worlds of learning and of conversation But what is an essay and how did it emerge as a literary form What are the continuities and contradictions across its history from Montaigne's 1580 *Essais* through the familiar intimacies of the Romantic essay and up to more recent essayists such as Virginia Woolf James Baldwin and Claudia Rankine Sometimes called the fourth genre the essay has been over shadowed in literary history by fiction poetry and drama and has proved notoriously resistant to definition On Essays reveals in the essay a pattern of paradox at once a pedagogical tool and a refusal of the methodical languages of universities and professions politically engaged but retired and independent erudite and anti pedantic occasional and enduring intimate and oratorical allusive and idiosyncratic Perhaps because it is a form of writing against which literary scholarship has defined itself there has been surprisingly little work on the tradition of the essay Neither a comprehensive history nor a student companion On Essays is a series of seventeen elegantly written essays on authors and aspects in the history of the genre
