Major Doctrines Of Communist China:

Major Doctrines of Communist China John Wilson Lewis, 1964 From the Preface When this collection of Chinese Communist writings was first conceived few such compilations of primary materials were available for the general reader That situation changed rather markedly in the past year What distinguishes this volume is its attempt to combine official Party documents with statements by ordinary Chinese and to sample the vast source material on specific categories of doctrine These selections include some of the most significant statements by Mao Tse tung Liu Shaoch i Chou En lai Teng Hsiao p ing and Lu Ting yi as well as Central Committee directives articles by lower level Party members and the Party and state constitutions *Politico-military Relationships in Communist China* Ralph L. Powell, 1963 **The Politics of Chinese Communism** Ilpyong J. Kim, 2023-07-28 The political system established by the Chinese Communist Party in 1949 had its origins in many respects in the Chinese Soviet Republic of 1931 1934 based in southern Kiangsi province about 400 miles southwest of Shanghai The Kiangsi period was important because it gave the Chinese Communists their first opportunity to govern an extensive area and a large population and in so doing to develop methods of mass mobilization as well as new techniques for conducting party and government affairs Kim explores the evolution of the Chinese Communist movement during the Kiangsi soviet period especially its organizational concepts behavioral patterns and development techniques of mass line politics He seeks answers to several questions What notions of organization shaped the Kiangsi political system Who formulated the policies How were they implemented at the rice roots level of government By analyzing Mao Tse tung s writings on organization and comparing them with those of other Chinese Communist theoreticians he achieves fresh insights into Mao s approach to administration and bureaucratic organization The distinct contribution of this book lies in its focus on such issues as how the Chinese Communist leaders viewed organizational problems within their movement especially following the failure of the 1947 revolution how they responded to these problems and how they maintained a balance of power among the party the government and the Red Army while administering the expanding territorial base and managing complex organizations This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 *Problems of Communism* ,1966 **Presentation Outlines and Reading List** ,1967 [Uneasy Partnerships](#) Thomas Fingar, 2017-04-25 Uneasy Partnerships presents the analysis and insights of practitioners and scholars who have shaped and examined China s interactions with key Northeast Asian partners Using the same empirical approach employed in the companion volume The New Great Game Stanford 2016 this new text analyzes the perceptions priorities and policies of China and its partners to explain why dyadic relationships evolved as they have during China s rise Synthesizing insights from an array of research Uneasy Partnerships traces how the

relationships that formed between China and its partner states Japan the Koreans and Russia resulted from the interplay of competing and compatible objectives as well as from the influence of third country ties These findings are used to identify patterns and trends and to develop a framework that can be used to illuminate and explain Beijing s engagement with the rest of the world

Liu Shaoqi and the Chinese Cultural Revolution Lowell Dittmer,2015-02-12 By addressing the issues that decimated China s monolithic elite in the late 1960s this text illuminates not only the life and fate of Liu Shaoqi but also the policy making process of a revolutionary state facing the diverting exigencies of economic modernization and political development

A Research Guide to Central Party and Government Meetings in China Kenneth Lieberthal,2017-07-14 Originally published in 1976 Lieberthal collated notes from Central Party government and military meetings on a national level in China between 1949 and 1975 to create this guide to Chinese policymaking This guide provides insight into issues such as the representation of important meetings in the media how policies are made and how policy making in China has varied over time This title will be of interest to students of Asian Studies and International Politics

The Critique of Ultra-Leftism in China, 1958-1981 ,1984-08 The Chinese political system has undergone a profound transformation since the death of Mao Zedong in 1976 and nowhere is this more evident than in the effort to exorcise the influence of the ultra Leftism that is alleged by the current Chinese leadership to have characterized much of the last two decades of the Maoist era The author places the post Mao assault on radicalism into the historical and ideological perspectives of earlier critiques of ultra Leftism within the Marxist tradition and the Chinese Communist Party He traces the evolution of the critique in the writings of Marx Engels Lenin and Mao and carefully examines three anti Leftist criticism and rectification campaigns in recent Chinese history the retreat from the Great Leap Forward of 1958 61 the campaign against Swindlers like Liu Shaoqi carried out in 1971 73 after the death of Lin Biao and the criticism of the Gang of Four following their purge in 1976 These cases are analyzed in terms of both the political conflict surrounding each campaign and the ideological issues raised by the critique of ultra Leftism Understanding the nature and extent of the critique of ultra Leftism helps to clarify the ideological world in which the Chinese leaders operate to explain some of the most perplexing events in the history of the People s Republic and to assess the changes that continue to shape the political environment of post Mao China
