Major Political Events In Iran Iraq And The Arabian Peninsula 1945 199:

Islands and International Politics in the Persian Gulf Kourosh Ahmadi, 2008-05-03 The position of the Persian Gulf as the main highway between East and West has long given this region special significance both within the Middle East and in global affairs more generally This book examines the history of international relations in the Gulf since the 1820s as great powers such as Britain and the US and regional powers such as Iran and Iraq vied for supremacy over this geopolitically vital region It focuses on the struggle for control over the islands of the Gulf in particular the three islands of Abu Musa Greater Tunb and Lesser Tunb an issue that remains highly contentious today It describes how for 170 years Britain eroded Iranian influence in the Gulf both directly by asserting colonial rule over Iranian islands and port districts and also through claiming Iranian islands for their prot g s on the Arab littoral It shows how after Britain s withdrawal these islands became a pawn in the animosity and conflict that pitted at one time Arab radicals and nationalists against monarchical Iran and later the conservative moderate Arab camp against Islamic Iran It goes on to explore the impact of the rise of American power in the Gulf since the start of the 1990s its policy of containment of Iran and Iraq and how this has provided encouragement to the ambitions of the Persian Gulf Arab littoral states especially the UAE towards the islands of the Gulf
