Crusades Benjamin Z. Kedar,Jonathan Phillips,Jonathan Riley-Smith,2016-08-12 Crusades covers

seven hundred years from the First Crusade 1095 1102 to the fall of Malta 1798 and draws together scholars working on theatres of war their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology law literature art numismatics and economic social political and military history Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East Particular attention is given to the publication of historical sources in all relevant languages narrative homiletic and documentary in trustworthy editions but studies and interpretative essays are welcomed too Crusades appears in both print and online editions Peter W Edbury again features in an issue of Crusades this time with his piece on The French translation of William of Tyre s Historia the manuscript tradition The Crusader States and their Neighbours Nicholas Morton,2020-04-24 The Crusader States and their Neighbours explores the military history of the Medieval Near East piecing together the fault lines of conflict which entangled this much contested region This was an area where ethnic religious dynastic and commercial interests collided and the causes of war could be numerous Conflicts persisted for decades and were fought out between many groups including Kurds Turks Armenians Arabs and the crusaders themselves Nicholas Morton recreates this world exploring how each faction sought to advance its own interests by any means possible adapting its warcraft to better respond to the threats posed by their rivals Strategies and tactics employed by the pastoral societies of the Central Asian Steppe were pitted against the armies of the agricultural societies of Western Christendom Byzantium and the Islamic World galvanising commanders to adapt their practices in response to their foes Today we are generally encouraged to think of this era as a time of religious conflict and yet this vastly over simplifies a complex region where violence could take place for many reasons and peoples of different faiths could easily find themselves fighting side by side *Unknown Crusader Castles* Kristian Molin,2001-04-01 The capture of Jerusalem by the First Crusade in 1099 signalled the beginning of an armed struggle in Palestine and throughout the Eastern Mediterranean which lasted until the 15th century It was a war dominated by the building securing and besieging of castles rather than by pitched battles Kristian Molin covers the military history of the crusades on a wider geographical scale than previous historians taking in Armenia Cyprus and Greece as well as the Holy Land He also shows the role of castles as administrative judicial and social centres in times of peace as well as in war *Unknown Crusader Castles* provides a fresh perspective on the history of the crusades *Archaeology of the Military Orders* Adrian Boas,2006-09-27 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Journey of the Wizard** Ron Minyard,2011 *The World of the Crusades* Andrew Holt,2019-06-05 Unlike traditional references that recount political and military history this encyclopedia includes entries on a wide range of aspects related to daily life during the medieval crusades The medieval crusades were fundamental in shaping world history and provide background for the conflict that exists between the West and the Muslim world today This two volume set presents fundamental information about the medieval crusades as a movement and its ideological impact on both the crusaders and the peoples of the East It takes a broad look at numerous topics related to crusading with the goal of

helping readers to better understand what inspired the crusaders the hardships associated with crusading and how crusading has influenced the development of cultures both in the East and the West The first of the two thematically arranged volumes considers topics such as the arts economics and work food and drink family and gender and fashion and appearance The second volume considers topics such as housing and community politics and warfare recreation and social customs religion and beliefs and science and technology Within each topical section are alphabetically arranged reference entries complete with cross references and suggestions for further reading Selections from primary source documents each accompanied by an introductory headnote give readers first hand accounts of the crusades **Journal of Medieval**

Military History John France, Kelly DeVries, Clifford J. Rogers, 2019-05-17 This volume focuses on two of the most vibrant areas of research in the field Crusader studies and the warfare of the Late Middle Ages embracing a diversity of approaches Chapters look at the battle of Tell Bashir 1108 in the context of Saljuq politics the defenses of Altit castle one of the Templars strongest fortifications from an archaeological perspective the involvement of the Military Orders in secular conflicts particularly in Europe and how royal women affected and were affected by the wars of Castile and the Crown of Aragon in the fourteenth century Fencing competitions are used to explore masculinity and status in Strasbourg from the late Middle Ages into the early modern period and key aspects of the actual conduct of warfare in the fifteenth century come under detailed scrutiny the role of cavalry in turning the Hundred Years War in favour of the French and the logistical and procurement difficulties and methods involved in fielding a Florentine army in 1498 The volume is completed with a translation and discussion of Guillaume Guiart's rich description of a French royal army on the march and in camp at the start of the fourteenth century Contributors Fabrizio Ansani Drew Bolinger Oliver Dupuis Ehud Galili Michael Harbinson Donald J Kagay Michael Livingston Ken Mondschein Helen J Nicholson Avraham Ronen Andrew L J Villalon Muslims and Crusaders Niall Christie, 2014-06-27 Muslims and Crusaders supplements and counterbalances the numerous books that tell the story of the crusading period from the European point of view enabling readers to achieve a broader and more complete perspective on the period It presents the Crusades from the perspective of those against whom they were waged the Muslim peoples of the Levant The book introduces the reader to the most significant issues that affected their responses to the European crusaders and their descendants who would go on to live in the Latin Christian states that were created in the region This book combines chronological narrative discussion of important areas of scholarly enquiry and evidence from primary sources to give a well rounded survey of the period It considers not only the military meetings between Muslims and the Crusaders but also the personal political diplomatic and trade interactions that took place between Muslims and Franks away from the battlefield Through the use of a wide range of translated primary source documents including chronicles dynastic histories religious and legal texts and poetry the people of the time are able to speak to us in their own voices

Books in Print, 1991 *Pilgrims' Castle ('Altit'), David's Tower (Jerusalem) and Qal'at ar-Rabad ('Ajlun)* C.N. Johns, Denys

Pringle, 2019-05-23 First published in 1997 this collection includes papers on Crusader era architecture in Palestine with a focus on Atlit the castle of Ajlun and on the Citadel of Jerusalem both the papers and sites of which have previously been difficult to access The volume is presented partly to repair the very real deficit in the literature on Crusader architecture and partly as a fitting memorial to the author who died in 1992 Atlit in particular held a special significance for C N Johns being the site of his first major project as a field archaeologist His Guide to Atlit a masterly summary of his findings remains the most complete and comprehensive account of the castle and its suburb The studies collected here pay tribute to their author's enduring contribution to the medieval archaeology of the Near East The first part of the book deals with the Pilgrim's Castle the great Templar fortress and town at Atlit The significance of Johns excavations at this site has been relatively neglected because it remains in a military area inaccessible to visitors and because almost the entire stock of his major publication was lost in 1947 This Guide to Atlit a synthesis of historical archaeological and architectural research on the monument is reprinted here together with all the interim reports relating to the medieval period Also included are Johns studies on the Citadel of Jerusalem the Tower of David and on the Islamic castle of Ajlun Together they represent a fundamental contribution to the study of the period of the Crusades and to the military architecture of the Middle Ages The notes by Denys Pringle bring the accounts up to date in the light of recent research *Medieval Rural Settlements in the Syrian Coastal Region (12th and 13th Centuries)* Balázs Major, 2016-03-31 This book is the result of more than a dozen years of research in the field of the hitherto unstudied medieval settlement pattern of the Syrian coastal region in the 12th and 13th centuries
