The Making of Home Judith Flanders, 2014-10-01 The idea that home is a special place a separate place a place where we can be our true selves is so obvious to us today that we barely pause to think about it But as Judith Flanders shows in this revealing book home is a relatively new concept When in 1900 Dorothy assured the citizens of Oz that There is no place like home she was expressing a view that was a culmination of 300 years of economic physical and emotional change In *The Making of Home* Flanders traces the evolution of the house across northern Europe and America from the 16th to the early 20th century and paints a striking picture of how the homes we know today differ from homes through history The transformation of houses into homes she argues was not a private matter but an essential ingredient in the rise of capitalism and the birth of the Industrial Revolution Without home the modern world as we know it would not exist and as Flanders charts the development of ordinary household objects from cutlery chairs and curtains to fitted kitchens plumbing and windows she also peels back the myths that surround some of our most basic assumptions including our entire notion of what it is that makes a family As full of fascinating detail as her previous bestsellers *The Making of Home* is also a book teeming with original and provocative ideas **Commercial and Financial Chronicle** ,1915 **Commercial and Financial**
