## **Making Common Sense:**

*Technopopulism* Christopher J. Bickerton, Carlo Invernizzi Accetti, 2021 Contemporary democracies face a crisis of political representation In understanding this crisis scholars and commentators often frame it as the end or the collapse of democracy This book takes a very different path It argues that we are witnessing a transformation in the nature and practice of political competition within existing democratic regimes This transformation consists in the rise of a new political field techno populism Within this field appeals to the people and appeals to expertise are the new structuring logic of democratic politics Populist appeals to a unitary people combine in multiple ways with technocratic claims about efficient policy making and policy implementation These multiple combinations form the basis for the varieties of techno populism outlined in detail in this book We focus in particular on British French and Italian cases The concept of technopopulism helps us to make sense of new and idiosyncratic political movements such as En Marche and the Five Star Movement Technopopulism is also the conceptual key to understanding the significance of Blairism for British politics and its legacy in the profound transformations underway in the contemporary Conservative Party The transition from an ideological struggle between left and right to this technopopulist political field where populist and technocratic appeals are fused together into novel forms of political organization is having a significant impact on the quality of democratic political competition This book analyses the origins and consequences of the rise of technopopulism as well as considering the remedies available to us to tackle its negative effects

Making Common Sense Common Practice V. Ralph Buzzotta, 1996 Shows how to regulate tension to produce a positive motivating power

**Making Common Sense Common Practice** V. Ralph Buzzotta, 1997 The business world today is full of buzzwords such as empowerment teamwork and continuous improvement In a desperate attempt to get a jump on the competition many business leaders are so busy searching for the next big idea that something important is being overlooked common sense Making Common Sense Common Practice tells you how to get full use of the most powerful management tool around your own common sense Learn how to trust yourself when it comes to making leadership decisions and sound judgments Learn how to take tension that sidetracks high performance and turn it into an energizing creative force Learn how to use what you already know Using five common sense techniques you will discover how to lead your people to build a high performance organization Grounded on the common sense principle that manager leaders are regulators of tension in the workplace Making Common Sense Common Practice discusses pragmatic actions that raise and lower tension keeping it in the constructive energizing range These actions are woven into a step by step program that result in optimal performance for your organization

Common Sense School Reform Frederick M.

Hess,2015-06-02 Forget everything you think you know about school reform Cutting through the cant sentiment and obfuscation characterizing the current school reform debate Frederick M Hess lacerates the conventional status quo reform efforts and exposes the naivete underlying reform strategies that rest on solutions like class size reduction small schools and enhanced professional development He explains that real improvement requires a bracing regime of common sense reforms that create a culture of competence by rewarding excellence punishing failure and giving educators the freedom and flexibility to do their work He documents the scope of the challenges we face and then provides concrete recommendations for addressing them through reforms to promote accountability competition a 21st century workforce effective school leadership and sensible reinvention Engagingly written and drawing on real world experiences and examples Common Sense School Reform will generate debate and help set the agenda for the future Human-Centric AI with Common Sense Filip Ilievski,2024-12-20 This book enables readers to understand the challenges and opportunities of developing human centered AI with commonsense reasoning abilities Despite apparent accuracy improvements brought by large neural models across task benchmarks common sense is still lacking The lack of common sense affects many tasks including story understanding decision making and question answering Commonsense knowledge and reasoning have long been considered the black matter of AI raising concerns about the trustworthiness and applicability of AI methods in both autonomous and hybrid applications This book describes how to design a more robust collaborative explainable and responsible AI through incorporating neuro symbolic commonsense reasoning In addition the book provides examples of how these properties of AI can facilitate a wide range of social good applications in digital democracy traffic monitoring education and robotics What makes commonsense reasoning such a unique and impactful challenge What can we learn from cognitive research when designing and developing AI systems How can we approach building responsible robust collaborative and explainable AI with common sense And finally what is the impact of this work on human AI teaming This book provides an accessible introduction and exploration of these topics Doing Philosophy of Technology Joseph C. Pitt,2011-03-24 As science becomes more deeply embedded in a complex technological infrastructure has this changed the relationship between the sciences and the various technologies that support them As our technologies help shrink our world can we restrict our ethical concerns or must we find a way to face the fact that we are now one world What do new forms of architecture say about whom we are Is the design process the new epistemological paradigm The answers to all of these is yes according to Joseph C Pitt VirginiaTech Doing Philosophy of Technology presents an updated and integrated overview of the most important thinking from this prominent philosopher of technology Throughout his career Joseph C Pitt has defended the view that to say anything meaningful about the value of a technology one must know something about that technology and how it functions in the world This starting point leads naturally to a pragmatist philosophical stance since it is the real world consequences of introducing a technology that must be the basis for any further normative judgements In the book we find an extended set of

arguments that challenge the idea that there are eternal philosophical issues that transcend the impacts that technologies make on human beings and their world Rather it is claimed that as our technologies transform our world they transform us and the kinds of questions we find important to answer

**Common Sense, Reasoning, & Rationality** Renée Elio, 2002 While common sense and rationality have often been viewed as two distinct features in a unified cognitive map this volume engages with this notion and comes up with novel and often paradoxical views of this relationship

**Power and Meaning Making in an EAP Classroom** Christian W. Chun, 2015-01-13 This book examines how critical literacy pedagogy has been implemented in a classroom through a year long collaboration between the author a researcher and an EAP teacher It details the teacher s introduction to functional grammar and accompanying critical literacy approaches to EAP and her growing critical language and discourse awareness of power and meaning making in the classroom The book traces her evolving classroom practices and addresses how powerful discourses in social circulation found their way into the classroom via the curriculum materials the students encountered The main themes of the book are threefold narrowing the divide between critically oriented researchers and practitioners how critical literacy is actually implemented in a teacher s classroom and how people students and the teacher engage in and with the representations and discourses of the everyday world that include neoliberal globalization racial and cultural identities and consumerism It will be of interest to both researchers and practitioners for the ethnographic and pedagogical issues it raises as well as its accessible theoretical frameworks illustrated by relevant classroom interactional data mediated multimodal and critical discourse analysis

**Making Intangible Heritage** Valdimar Tr. Hafstein, 2018-08-29 In Making Intangible Heritage Valdimar Tr Hafstein folklorist and official delegate to UNESCO tells the story of UNESCO s Intangible Heritage Convention In the ethnographic tradition Hafstein peers underneath the official account revealing the context important for understanding UNESCO as an organization the concept of intangible heritage and the global impact of both Looking beyond official narratives of compromise and solidarity this book invites readers to witness the diplomatic jostling behind the curtains the making and breaking of alliances and the confrontation and resistance all of which marked the path towards agreement and shaped the convention and the concept Various stories circulate within UNESCO about the origins of intangible heritage Bringing the sensibilities of a folklorist to these narratives Hafstein explores how they help imagine coherence conjure up contrast and provide charters for action in the United Nations and on the ground Examining the international organization of UNESCO through an ethnographic lens Hafstein demonstrates how concepts that are central to the discipline of folklore gain force and traction outside of the academic field and go to work in the world ultimately shaping people s understanding of their own practices and the practices themselves From the cultural space of the Jemaa el Fna marketplace in Marrakech to the Ise

Shrine in Japan Making Intangible Heritage considers both the positive and the troubling outcomes of safeguarding intangible heritage the lists it brings into being the festivals it animates the communities it summons into existence and the way it orchestrates difference in modern societies
