Making Decisions That Dont Harm Others:

Making Decisions That Don't Harm Others Margaret H. Goldstein, 2003 DECISION TIME! Better Decisions for a Better Life Richard Davidson, 2007-08 Where you are in life today is the result of all of the past decisions which you have made or which have been made for you in response to the various situations and events both expected and unexpected that have impacted your life The decisions that you will make from this point forward will determine the degree to which your future will be positive or negative Decision Time describes the subjective and multi variable nature of real life decisions and demonstrates techniques for making complex decisions with ease and insight Decision Time provides guidance for many different decision making situations with both personal and business aspects Topics with examples from life include games negotiation the challenge of financing a college education starting a small business purchasing shopping family relationships getting the government to listen to you investments and many more Decision Time gives you insight into the decision making process as applied to both small and large choices you will face It includes dynamic aspects cultural effects and morality as applied to decision making for individuals teams and societies Decision Time prepares you to face the continuous impact of decision situations confidently and without hesitation **Behavioral Economics For Dummies** Morris Altman, 2012-03-05 A guide to the study of how and why you really make financial decisions While classical economics is based on the notion that people act with rational self interest many key money decisions like splurging on an expensive watch can seem far from rational The field of behavioral economics sheds light on the many subtle and not so subtle factors that contribute to our financial and purchasing choices And in Behavioral Economics For Dummies readers will learn how social and psychological factors such as instinctual behavior patterns social pressure and mental framing can dramatically affect our day to day decision making and financial choices Based on psychology and rooted in real world examples Behavioral Economics For Dummies offers the sort of insights designed to help investors avoid impulsive mistakes companies understand the mechanisms behind individual choices and governments and nonprofits make public decisions A friendly introduction to the study of how and why people really make financial decisions The author is a professor of behavioral and institutional economics at Victoria University An essential component to improving your financial decision making and even to understanding current events Behavioral Economics For Dummies is important for just about anyone who has a bank account and is interested in why and when they spend money **Errors in Evidence-Based Decision Making** Robert W. Janke, Bruce S. Cooper, 2014-06-25 Existing research methods textbooks emphasize the mechanics of HOW to conduct research studies However many students fail to see WHY it is important to learn about research because they will never conduct research studies These students do not become engaged in learning and believe that research courses and textbooks are useless They do not see the need of developing research literacy to understand the applications and limitations of research to their daily lives This book engages students with a nonmathematical presentation that includes real examples of

the consequences of research errors in daily life The organization facilitates learning with objectives concepts description of errors best practices and examples This is a research methods textbook for students who fear research textbooks The diversity of topics in this book permits application to research methods courses in these academic fields Economics Education Political Science Psychology and Sociology This should be the first book for all students to introduce research and develop research literacy

Why It's OK to Make Bad Choices William Glod,2020-08-13 If we are kind people we care about others including others who tend to hurt themselves We all have friends or family members who have potential but squander or even ruin their lives from things like drug abuse unwise spending decisions or poor dietary habits Concern for others often motivates us to endorse laws or private interventions meant to keep people from harming themselves even if that s what they want to do in the moment However it is far from clear that such paternalistic measures are on net benign and they tend to violate an understanding that we should let adults make their own decisions In this little book William Glod argues that it s OK to allow people to make bad choices It s OK even if those choices risk causing a lot of harm Most defenders of paternalism agree that some bad choices are not harmful enough to require laws to stop them However Glod goes further He argues that some people might want and deserve the freedom to make truly bad choices because such freedom is the only way they can act responsibly He also argues that some bad choices may not even be bad even if we can t know with confidence a person s true desires In addition the book explores choices that are bad because they might impose high monetary costs on others arguing that mandatory insurance may be a better solution than eliminating the choice Finally it explores the potential pitfalls of paternalistic laws and policies and how unintended costly consequences can sabotage the most well intended plans

Key Features Introduces key concepts for understanding paternalism and freedom of choice for undergraduates and general readers Discusses how many of our preferences are not easily understood by others and shows how assumptions of what our true preferences can often backfire Explores ways in which people may want the freedom to make mistakes Examines the unintended consequences and associated problems of many paternalistic laws and regulations
