*National Sustainable Development Strategies* D. Barry Dalal-Clayton, 1994      *Toward Environmentally Sustainable Development in Sub-Saharan Africa*, 1996 Includes statistics      *The World Bank* Devesh Kapur, John P. Lewis, Richard C. Webb, 2010-12-01 This effort constitutes the most comprehensive and authoritative work to date on the history of the International Bank for Reconstruction and Development or the World Bank Author editors John Lewis Richard Webb and Devesh Kapur chronicle the evolution of this institution and offer insights into its successes failures and prospects for the future The result of their intense labors is an invaluable resource for other researchers and a fascinating study in its own right The work is divided into two volumes The first is organized thematically and examines the critical events and policy issues in the World Bank's development over the last fifty years Chapter topics include poverty alleviation structural adjustment lending environmental programs the International Finance Corporation IFC the International Development Association IDA and the evolution of the Bank as an institution The second volume contains case studies written by experts with experience in the various regions in which the Bank operates There are chapters on the Bank's activities in Korea Mexico Africa South Asia and Eastern Europe Volume 2 also contains essays on the World Bank's relationship with the United States Japan and Western Europe and its partnership with the International Monetary Fund IMF By special arrangement the authors have had wide ranging access to confidential documents at the World Bank making this work a unique source of information on the internal workings of this critical institution They have also drawn on extensive interviews with current and past Bank officials Moreover publication could not be more timely coming as it does when many in the development community and in the U S Congress are questioning the Bank's track record and even its reason for existence The World Bank Its First Half Century will be of great interest not only to development practitioners but also to students of international relations development economics and global finance During the course of the project John P Lewis and Richard Webb were nonresident senior fellows and Devesh Kapur was a program associate in the Foreign Policy Studies program at the Brookings Institution

**Engendering the Environment? Gender in the World Bank's Environmental Policies** Priya A. Kurian, 2018-02-06 This title was first published in 2000 Priya Kurian's research offers environmental policy scholarship a new theoretically rich and empirically validated approach to understanding the significance of gender to environmental policy

**Greening International Institutions** Jacob Werksmann, 2017-09-25 Environmentally sustainable development has become one of the world's most urgent priorities But countries cannot achieve it alone it depends on international coordination and action Greening International Institutions the latest in a series of highly acclaimed publications devoted to environmental and developmental law assesses how far and how successfully intergovernmental organizations have responded to the challenge The organizations analyzed include the UN General Assembly the new Commission for Sustainable Development UNEP UNDP and UNCTAD WTO GATT NAFTA the Bretton Woods institutions and

several regional bodies as well as treaty bodies and the mechanisms for avoiding and settling disputes For each the contributors provide an accessible overview of the organization s mandate and structure examine substantive policy initiatives and assess the need and scope for procedural and institutional reform Drawing together a collection of essays by lawyers and researchers from various backgrounds Greening International Institutions is stimulating reading for students and policy makers as well as anyone concerned with the development of international institutions Jacob Werksman is an attorney a Programme Director at FIELD and Visiting Lecturer in International Economic Law at the University of London Greening International Institutions is the fifth volume in the International Law and Sustainable Development series co developed with FIELD The series aims to address and define the major legal issues associated with sustainable development and to contribute to the progressive development of international law Other titles in the series are Greening International Law Interpreting the Precautionary Principle Property Rights in the Defence of Nature and Improving Compliance with International Environmental Law A legal parallel to the Blueprint series welcome timely and provocative David Pearce Originally published in 1996      Sustainable Banking Jan Jaap Bouma, Marcel Jeucken, Leon Klinkers, 2017-09-08 This comprehensive addition to the debate on sustainable development has been produced in order to take a global pulse on how the financial services sector is responding to the growing challenge of shareholder and stakeholder expectations on social and environmental performance In the opinion of many commentators in this new book given the intermediary role banks play within economies their potential contribution toward sustainable development is enormous Indeed for banks the conclusion that corporate sustainability has become an investable concept that increases long term shareholder value is becoming difficult to deny To date banks have been relatively slow to examine their exposure to risk the environmental and social performance of their clients and the business opportunities of sustainable development the products and services they offer Not before time Sustainable Banking concludes that this is beginning to change with both risk and opportunity becoming established elements in banking policies towards environmental sustainability In addition banks have now begun to take notice of and address their own environmental performance Through the use of case studies and detailed analysis the book examines the environmental policies of banks the importance of transparency and communication with their stakeholders environmental and ethical investment funds current practice by the providers of financial services with regard to environmental risk management and finally the key role of government NGOs and multilateral banks in delivering sustainability Sustainable banking has not however been achieved and nor will it be in the immediate future As globalisation proceeds apace Sustainable Banking argues that improvements are necessary in banks attitudes toward transparency and accountability with regard to their lending policies In addition in order to promote best practice the leading banks need to start measuring their customers environmental performance in order to persuade polluting clients that minimum compliance to regulations will no longer suffice The book finds many shining examples in the co operative mutual and social sectors for

the big players to emulate Environmental and ethical considerations in such loan portfolios have proven to be profitable and best in class larger banks are now also reaping benefits The unprecedented scope of the book has attracted contributors from four continents including Deloitte Touche Rabobank The World Bank The European Bank for Reconstruction and Development The United Nations Environment Programme The World Business Council for Sustainable Development UBS Henderson Investors KPMG The World Resources Institute and SAM Sustainability *Environmental Justice in South Africa* David A. McDonald, 2002 In 11 articles reprinted from a 1999 journal and a 1998 anthology South African social scientists and those from elsewhere who have worked there provide an overview of the environmental justice movement in the country which blossomed only after the battle against apartheid was won in the early 1990s They trace its history and describe the key theoretical and practical issues it faces after a decade what has changed and what remained the same the most and least effective strategies and future directions Annotation copyrighted by Book News Inc Portland OR [Making Development Sustainable](#) Ismail Serageldin, Andrew D. Steer, Michael M. Cernea, 1994-01-01 This collection of papers summarizes the World Bank's views of the conceptual methodological and technical issues that remain to be resolved after the UNCED meeting more commonly known as the Rio Earth Summit in 1992 These papers written by staff members [Environmental Regulation Through Financial Organisations: Comparative Perspectives on the Industrialised Nations](#) Benjamin Richardson, 2002-02-13 This book takes a comparative perspective of practice in the European Union North America Japan and Australasia arguing that existing legal reforms to promote sustainable development are unlikely to be successful unless environmental policy can be diffused and embedded in the financial services sector This sector plays a crucial role in creating the financial conditions that allow much economic development to proceed Financial markets are already highly regulated in pursuance of various public policy objectives and there is scope to adapt existing regulation to incorporate environmental aspects into the financial services sector In terms of specific reforms the book focuses on the role of corporate environmental reporting economic instruments and liability rules to provide a proper context for engaging financial organisations with the environment as well as reforms to the system of prudential regulation that currently governs this sector Beyond the focus on the financial services sector the book raises complex questions regarding the relationship between the state and market institutions in environmental policy and will appeal to scholars from a wide range of disciplines interested in problems of environmental governance [The Practice of Strategic Environmental Assessment](#) Riki Therivel, 2013-10-11 The practical application of strategic environmental assessment SEA is becoming increasingly common A growing number of SEAs are being undertaken around the world and several countries have issued guidance on how these should be carried out However few countries as yet have formal SEA regulations and few completed SEAs have demonstrated all the elements of current best practice The Practice of Strategic Environmental Assessment aims to provide a unique analysis of SEAs which have been undertaken drawing on a variety of methods and circumstances to illustrate how best practice can be achieved and providing

inspiration for those considering studying commission or carrying out an SEA Part I sets the rest of the book in context giving a review of international SEA guidance and regulations and discussing models and methodologies Part II then analyses a comprehensive set of case studies from countries which have extensive experience in SEA or which provide particularly good examples The case studies are discussed in three sections sectoral SEAs SEAs of land use plans and SEAs of policies and provide examples of different scales and approaches as well as country specific experience The final chapter draws out some constraints to effective SEA as well as positive themes which show how effective SEA can contribute to wider environmental assessment Written by an international team of SEA practitioners and experts this volume will be of particular use to students of environmental policy and management environmental consultants local authorities policy makers and anyone involved in the commissioning process or review of SEAs **World Bank Environment Publications** ,1996 **Global Institutions and Development** Morten Boas,Desmond McNeill,2004-03 Examines the concepts that have powerfully influenced development policy and more broadly looks at the role of ideas in international development institutions and how they have affected current development discourse **Becoming Part of the Solution** Bill Wallace,2005-01-01 **Land Quality Indicators** ,1995 Spanish edition Reformas Laborales y Economicas en America Latina y el Caribe Examines key aspects of labor market conditions as they are affected by the economic reforms that are integrating Latin American and Caribbean economies with world markets Also available English edition ISBN 0 8213 3348 8 Stock No 13348 Portuguese edition ISBN 0 8213 3502 2 Stock No 13502 **Historical Dictionary of the World Bank** Sarah Tenney,Anne C. Salda,2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies **Biodiversity and Sustainable Use of Kyrgyzstan's Walnut-fruit Forests** Jürgen Blaser,1998 A collection of papers many translated from Russian that were originally presented at a seminar held in 1995 to increase international awareness about Kyrgyzstan s unique walnut fruit forests Subject matter includes the historical and present day utilization and management of these forests their ecological diversity and importance for biodiversity conservation and measures adopted for the genetic
