to text and drive story isn't just one way to persuade. It's the way. It's built into the architecture of the brain and has been since early humans gathered around the camp fire trying to figure out how to outsmart the lion next door. In *Story or Die*, story coach Lisa Cron sets out to decode the power of story first by examining how the brain processes information, translates it into narrative, and then guards it as if your life depends on it. Armed with that insight, she focuses on how to find your real target audience and then pinpoint their hidden resistance. Finally, she takes you step by step through the creation of your own story, one that allows your audience to overcome their resistance and take up your call to action not because you told them to, but because they want to. That is the power of story. Use it wisely.
