Making Of The Chinese Industrial Workplace State Revolution And Labor Management:

The Making of the Chinese Industrial Workplace Mark W. Frazier, 2002 *The Palgrave Handbook of Workers' Participation at Plant Level* Stefan Berger, Ludger Pries, Manfred Wannöffle, 2019-01-21 Comprising the study documentation and comparison of plant level workers participation around the world this volume meets the challenge of offering a global perspective on workers participation representation and models of social partnership Value chains economic life inter cultural exchange and knowledge as well as the mobility of persons and ideas increasingly cross the borders of nation states In the knowledge age the active participation of workers in organizations is crucially important for sustainable and long term growth and innovation This handbook offers lessons from historical global accounts of workers participation at plant level even as it looks forward to predict forthcoming trends in participation *China's Deep Reform* Lowell Dittmer, Guoli Liu, 2006-03-28 This reader offers the most comprehensive assessment of Chinese domestic politics available by bringing together the best recent scholarship in the field The anthology focuses on the origin content and significance of the post 1989 phase of China's reform and opening to the **The Oxford Handbook of the History of Communism** S. A. Smith, 2014-01-09 The impact of Communism on the twentieth century was massive equal to that of the two world wars Until the fall of the Soviet Union in 1991 historians knew relatively little about the secretive world of communist states and parties Since then the opening of state party and diplomatic archives of the former Eastern Bloc has released a flood of new documentation The thirty five essays in this Handbook written by an international team of scholars draw on this new material to offer a global history of communism in the twentieth century In contrast to many histories that concentrate on the Soviet Union The Oxford Handbook of the History of Communism is genuinely global in its coverage paying particular attention to the Chinese Revolution It is global too in the sense that the essays seek to integrate history from above and from below to trace the complex mediations between state and society and to explore the social and cultural as well as the political and economic realities that shaped the lives of citizens fated to live under communist rule The essays reflect on the similarities and differences between communist states in order to situate them in their socio political and cultural contexts and to capture their changing nature over time Where appropriate they also reflect on how the fortunes of international communism were shaped by the wider economic political and cultural forces of the capitalist world The Handbook provides an informative introduction for those new to the field and a comprehensive overview of the current state of scholarship for those seeking to deepen their understanding *The SAGE Handbook of Contemporary China* Weiping Wu, Mark Frazier, 2018-07-09 The study of contemporary China constitutes a fascinating yet challenging area of scholarly inquiry Recent decades have brought dramatic changes to China's economy society and governance Analyzing such changes in the context of multiple disciplinary perspectives offers opportunities as well as challenges for scholars in the field known as contemporary China Studies The SAGE Handbook of Contemporary China is a two volume exploration of the transformations

of contemporary China firmly grounded in the both disciplinary and China specific contexts Drawing on a range of scholarly approaches found in the social sciences and history an international team of contributors engage with the question of what a rapidly changing China means for the broader field of contemporary China studies and identify areas of promising future research Part 1 Context History Economy and the Environment Part 2 Economic Transformations Part 3 Politics and Government Part 4 China on the Global Stage Part 5 China s Foreign Policy Part 6 National and Nested Identities Part 7 Urbanization and Spatial Development Part 8 Poverty and Inequality Part 9 Social Change Part 10 Future Directions for Contemporary China Studies Heritage Politics in China Yujie Zhu,Christina Maags,2020-01-02 Heritage Politics in China The Power of the Past studies the impact of heritage policies and discourses on the Chinese state and Chinese society It sheds light on the way Chinese heritage policies have transformed the narratives and cultural practices of the past to serve the interests of the present As well as reinforcing a collective social identity heritage in China has served as an instrument of governance and regulation at home and a tool to generate soft power abroad Drawing on a critical analysis of heritage policies and laws empirical case studies and interviews with policymakers practitioners and local communities the authors offer a comprehensive perspective on the role that cultural heritage plays in Chinese politics and policy They argue that heritage making appropriates international national and local values thereby transforming it into a public good suitable for commercial exploitation By framing heritage as a site of cooperation contestation and negotiation this book contributes to our understanding of the complex nature of heritage in the rapidly shifting landscape of contemporary China Heritage Politics in China The Power of the Past is essential reading for academics researchers and students in the fields of heritage studies cultural studies Asian studies anthropology tourism and politics *A Companion to Chinese History* Michael Szonyi,2017-02-06 A Companion to Chinese History presents a collection of essays offering a comprehensive overview of the latest intellectual developments in the study of China s history from the ancient past up until the present day Covers the major trends in the study of Chinese history from antiquity to the present day Considers the latest scholarship of historians working in China and around the world Explores a variety of long range questions and themes which serves to bridge the conventional divide between China s traditional and modern eras Addresses China s connections with other nations and regions and enables non specialists to make comparisons with their own fields Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality national identity and the environment *"Kingdom-Minded" People* Denise Austin,2011-09-23 This book explores how Christian identity motivated early twentieth century Chinese business Christians toward economic social and religious contributions in China and beyond Parallels are also revealed today particularly through the influence of Pentecostal charismatic and evangelical training

The History of the People's Republic of China, 1949-1976 Julia Strauss,2007-06-11 Examines the People s Republic of China between 1949 and 1976 from an explicitly historical perspective *Contemporary Chinese Politics* Allen

Carlson, Mary E. Gallagher, Kenneth Lieberthal, Melanie Manion, 2010-07-29 *Contemporary Chinese Politics Sources Methods and Field Strategies* considers how new and diverse sources and methods are changing the study of Chinese politics Contributors spanning three generations in China studies place their distinct qualitative and quantitative methodological approaches in the framework of the discipline and point to challenges or opportunities or both of adapting new sources and methods to the study of contemporary China How can we more effectively use new sources and methods of data collection How can we better integrate the study of Chinese politics into the discipline of political science to the betterment of both This comprehensive methodological survey will be of immense interest to graduate students heading into the field for the first time and experienced scholars looking to keep abreast of the state of the art in the study of Chinese politics *How Maoism Was Made* Aaron William Moore, Jennifer Altehenger, 2024-12-26 *How Maoism Was Made* features new scholarship on the early years after the Chinese Communist revolution showing how ordinary people in China built socialism through their contributions to industry science and the arts **Gilded Voices** Qiliang He, 2012-07-06 In *Gilded Voices* Economics Politics and Storytelling in the Yangzi Delta since 1949 Qiliang He pieces together published archival and oral history sources to explore the role of the cultural market in mediating between the state and artists in the PRC era By focusing on pingtan a storytelling art using the Suzhou dialect the book documents both the state's efforts to police artists and their repertoire and storytellers collaboration with as well as resistance to state supervision and intervention The book thereby challenges long held scholarly assumptions about the Chinese Communist Party's success in politicizing popular culture patronizing artists abolishing the cultural market and enforcing rigid censorship in Mao's times *The Human Tradition in Modern China* Kenneth J. Hammond, Kristin Stapleton, 2008 Through compelling biographies of a wide range of historical figures this engaging text presents a panorama of modern Chinese history that illustrates the great social and political changes that have occurred over the past 500 years Through the lives of both the famous and the obscure the contributors explore such enduring themes of the flexibility of the definition of Chinese in an era of imperialism and revolution the tremendous transformations in gender relations and the wide gap between the lives of urban and rural Chinese Richly researched these biographies are written in an accessible and appealing style that will engage all readers interested in modern China **Worlds of Labour Turned Upside Down**, 2020-09-29 This volume offers a bold restatement of the importance of social history for understanding modern revolutions The essays collected in *Worlds of Labour Turned Upside Down* provide global case studies examining changes in labour relations as a causal factor in revolutions challenges to existing labour relations as a motivating factor during revolutions the long term impact of revolutions on the evolution of labour relations The volume examines a wide range of revolutions in the nineteenth and twentieth centuries covering examples from South America Africa Asia and Western and Eastern Europe The volume goes beyond merely examining the place of industrial workers paying attention to the position of slaves women working on the front line of civil war colonial

China's Social Insurance in the Twentieth Century Aiqun Hu, 2015-10-27 In China's Social Insurance in the Twentieth Century Aiqun Hu develops a framework of interactive diffusion of global models in examining the history of China's social insurance since the 1910s The book covers both Nationalist and Communist controlled areas 1927 1949 and Taiwan 1949 present surpassing the party divide It argues that China's progression in social insurance resulted from diffusion of two global models German capitalist and Soviet socialist social insurance until the early 1990s Thereafter China's social insurance reforms were increasingly directed by the World Bank's neoliberal models which also influenced Taiwan's pension reforms During the entire process however global forces provided the basic intellectual framework while national forces determined the timing and specifics of adopting the models

The Chinese Typewriter Thomas S. Mullaney, 2018-10-09 How Chinese characters triumphed over the QWERTY keyboard and laid the foundation for China's information technology successes today Chinese writing is character based the one major world script that is neither alphabetic nor syllabic Through the years the Chinese written language encountered presumed alphabetic universalism in the form of Morse Code Braille stenography Linotype punch cards word processing and other systems developed with the Latin alphabet in mind This book is about those encounters in particular thousands of Chinese characters versus the typewriter and its QWERTY keyboard Thomas Mullaney describes a fascinating series of experiments prototypes failures and successes in the century long quest for a workable Chinese typewriter The earliest Chinese typewriters Mullaney tells us were figments of popular imagination sensational accounts of twelve foot keyboards with 5 000 keys One of the first Chinese typewriters actually constructed was invented by a Christian missionary who organized characters by common usage but promoted the less common characters for Jesus to the common usage level Later came typewriters manufactured for use in Chinese offices and typewriting schools that turned out trained typewriter girls and typewriter boys Still later was the Double Pigeon typewriter produced by the Shanghai Calculator and Typewriter Factory the typewriter of choice under Mao Clerks and secretaries in this era experimented with alternative ways of organizing characters on their tray beds inventing an input method that was the first instance of predictive text Today after more than a century of resistance against the alphabetic not only have Chinese characters prevailed they form the linguistic substrate of the vibrant world of Chinese information technology The Chinese Typewriter not just an object history but grappling with broad questions of technological change and global communication shows how this happened A Study of the Weatherhead East Asian Institute Columbia University

China in the World Market Thomas Geoffrey Moore, 2002-03-18 This book will be provocative reading for anyone concerned with China and the world economy

[The Oxford History of Modern China](#) Jeffrey N. Wasserstrom, 2022-01-27 excellent LSE Review of Books China is the world's most populous country and newest

superpower whose place on the international stage can only be understood through the lens of its modern history The Oxford History of Modern China is essential reading for anyone who wants to understand this rising power in what promises to be the Chinese century Covering the period of dramatic shifts and surprising transformations which comprise China's modern history the book spans from the founding of the Qing Dynasty 1644 1912 to the present day It introduces readers to important but often overlooked events in China's past such as the bloody Taiping Civil War 1850 1864 and also sheds new light on more familiar landmarks in Chinese history such as the Opium War 1839 1842 the Boxer Uprising of 1900 the rise to power of the Chinese Communist Party in 1949 the Tiananmen protests and Beijing Massacre of 1989 and China's rise to economic superpower status in the 21st century A new chapter for this edition brings the story into the era of Xi Jinping

Self-Reflections of Fears and Dreams Ray T. Hartman, 2023-04-15 While the years between 1927 and 1953 in China were a time of war revolution and social disintegration they were also a time for building political legitimacy In this groundbreaking work Ray Hartman painstakingly details how Chinese Communist Party CCP leaders perceived political legitimacy during the party's formative years He argues that Chinese Communist leaders' conception of legitimacy was the main force driving the party's policies and military strategy during this time Although legitimacy often comes up in discussions pertaining to the CCP's performance regarding the party's policies whether they be social economic or military this work is the first to demonstrate how top CCP leaders themselves understood the concept Providing extensive documentation from party directives and speeches including recently available sources as well as memoirs written by party members and military leaders the author reveals a CCP consumed with the notion of its own legitimacy in hopes of not only attaining power but saving the Chinese state from destructive internal and external forces

Trade and Technology Networks in the Chinese Textile Industry Carles Brasó Broggi, 2016-04-29 The aim of this book is to track the historical origins of China's economic reforms From the 1920s and 1930s strong ties were built between Chinese textile industrialists and foreign machinery importers in Shanghai and the Yangzi Delta Despite the fragmentation of China the contribution of these networks to the modernization of the country was important and longstanding Facing the challenge of growing in a fragmented country Chinese textile firms such as Dafeng Dacheng and Lixin focused on urban markets and also on importing technology for upgrading their production When the war against Japan blocked trade routes inside China these networks were concentrated in Shanghai where they envisaged an export oriented development strategy for China that was based on importing machinery and exporting manufactured products However this strategy was only implemented precariously in Shanghai while the city stood as a neutral space in the first years of the Japanese occupation but was only consolidated in Hong Kong in the late 1940s where textile industrialist and most of the foreign importers migrated These networks were thus reestablished in Hong Kong where they contributed to the city's industrialization in the Cold War period Meanwhile the Chinese industrialists that stayed in Shanghai and the Yangzi Delta had to adapt to the Maoist regime and were progressively incorporated into the

state owned companies or the local government agencies such as the United Front or the Textile bureaus However from the early 1970s the links between Hong Kong and Shanghai were reactivated and these networks played again a key role in the modernization of China especially regarding the imports of technology and exports of manufactured goods The book ends with the first joint ventures between Hong Kong businessmen and Chinese local administrations that took place in the beginnings of China s economic reforms in 1979
