**The English Constitution** William Elliot Bulmer,2025-09-02 What is England What is England s place in the United Kingdom or indeed outside it How should England be governed What constitutional foundations are needed to secure English democracy In this ground breaking book Dr W Elliot Bulmer makes the case for a written constitution for England Informed by comparative constitutional scholarship and by practical experience of constitution making around the world the book ties together debates on English national identity with discussion on the constitutional future of England It offers an English solution to the problem of the United Kingdom s constitutional disrepair and a constitutional solution to the problem of England s identity crisis Demonstrating that a written constitution both practical in the English context and compatible with the English constitutional tradition the book includes an example draft constitution inspired by Westminster Model democracies in the Commonwealth

previously the case It now exists in a way in which it previously did not However though the changes may seem revolutionary much of the underlying structure remains unchanged there are limits to the changes Where does all this leave the Constitution Here constitutional experts political scientists and legal practitioners present up to date and in depth commentaries on their respective areas of expertise While also a Festschrift in honour of Vernon Bogdanor this book is above all a comprehensive compendium on the present state of the British Constitution The new constitutional politics has spawned a new constitutional scholarship This stimulating collection skilfully put together by Matt Qvortrup works both as a welcome snapshot of where we are now and as an expert audit from specialists in law history and political science of the deeper issues and of the complex dynamics of continuity and change in the ongoing refashioning of Britain s constitutional architecture Kevin Theakston Professor of British Government University of Leeds The highly distinguished team of scholars assembled by Matt Qvortrup has produced a deeply thought provoking collection on the profound constitutional changes that have occurred in the UK over the last twenty years A book worthy of reaching a very wide readership Roger Scully Professor of Political Science Cardiff University Vernon Bogdanor understands like few others the connections between history politics and institutions and that is what makes him such an authority on the British system of government The Rt Hon David Cameron MP Prime Minister I think Vernon s guiding principle at Brasenose was to treat all his students as if they might one day be Prime Minister At the time I thought this was a bit over the top but then a boy studying PPE at Brasenose two years beneath me became Prime Minister Toby Young *The Spectator*      *Index-catalogue of the Law Library of the Supreme Court of Ohio.
