## **Making Of The President 196:**

The First Modern Campaign Gary Donaldson, 2007 The presidential campaign that pitted Richard M Nixon against John F Kennedy was the most significant political campaign since World War II With Eisenhower's tenure at an end American society broke with the culture of the war years This social shift was reflected in and provoked by new trends in American political life and political campaigning all of which made 1960 a landmark year in American politics In this engaging book Gary A Donaldson tells the story of Kennedy versus Nixon with a sharp eye for the salient political developments and a keen sense of the drama of an election that was unlike any other the nation had experienced The election of 1960 was also an orchestrated political drama organized as a sweeping campaign from coast to coast and staged for a national television audience This made it the first modern campaign in which the television media changed the dynamics of presidential politics and in which photographs charisma and direct appeals to voters counted as they had never done before It was also an election of intense personal rivalry made all the more spirited by the prejudice against Kennedy's Catholicism and his intention to widen the American political arena Ideological shifts within the parties as they combined with innovations in campaigning would mark a clear divide in politics as it was practiced and politics as it would have to be practiced in the future Yet not since Theodore White's journalistic account The Making of the President 1960 has attention been paid to the full 1960 campaign as it played out in the early primaries and then culminated in the November election Donaldson shows why the whole political season is critical to understanding American politics today The Making of the President 1960 Theodore H. White, 2024-03-19 The Pulitzer Prize winning behind the scenes account of the historic Nixon Kennedy race A fascinating story of a fascinating campaign Time This is the dramatic and groundbreaking chronicle that captured the epic clash between John F Kennedy and Richard M Nixon in the 1960 presidential election and in the process revolutionized modern political journalism Granted intimate access to all parties involved New York Times bestselling author Theodore White crafted an almost mythic story from the decisive primary battles to the history making televised debates the first of their kind Portraying both the grittiness and the grandeur of the process this classic account addresses emerging themes and trends in American politics that carry ripple effects to this day Superb vignettes If this book were merely a campaign report it could be recommended glowingly on its own terms But it is more The author sees the campaign as a milestone in the greatest reorientation of American politics since the Civil War The New York Times White a gifted journalist takes the cold ashes of a political campaign and injects such a sense of immediacy that we relive the entire race the whole pattern of the pre convention months the grueling struggle in the primaries the fight for nomination in San Francisco the fight for the platform in Chicago A perceptive analysis of the inside story of the campaign told with extraordinary objectivity Kirkus Reviews A masterpiece full of deep insights into political power in America and how our democracy works It gripped me from beginning
