Canning, Thomas Postlewait, 2010-04-15 Representing the Past is required reading for any serious scholar of theatre and performance historiography original in its conception global in its reach thought provoking and transformative in its effects Gay Gibson Cima author *Early American Women Critics Performance Religion Race* How Theatre Educates David Wallace Booth, Kathleen Gallagher, 2003-01-01 How Theatre Educates is a fascinating and lively inquiry into pedagogy and practice that will be relevant to teachers and students of drama educators artists working in theatre and the theatre going public

The Making of the West End Stage Jacky Bratton, 2011-10-13 All roads lead to London and to the West End theatre This book presents a new history of the beginnings of the modern world of London entertainment Putting female centred gender challenging managements and styles at the centre it redraws the map of performance history in the Victorian capital of the world Bratton argues for the importance in Victorian culture of venues like the little Strand Theatre and the Gallery of Illustration in Regent Street in the experience of mid century London and of plays drawn from the work of Charles Dickens as well as burlesques by the early writers of Punch Discovering a much more dynamic and often woman led entertainment industry at the heart of the British Empire this book seeks a new understanding of the work of women including Eliza Vestris Mary Ann Keeley and Marie Wilton in creating the template for a magical new theatre of music feeling and spectacle

Writing and Rewriting National Theatre Histories S.E. Wilmer, 2009-11 Historians of theatre face the same temptations and challenges as other historians they negotiate assumptions their own and those of others about national identity and national character they decide what events and actors to highlight or omit and what framework and perspective to use for telling the story Personal biases trends in scholarship and sociopolitical contexts influence all histories and theatre histories too are often revised to reflect changing times and interests This significant collection examines the problems and challenges of formulating national theatre histories The essayists included here leading theatre scholars from all over the world many of whom wrote essays specifically for this volume provide an international context for national theatre histories as well as studies of individual nations They cover a wide geographical area Asia the Middle East Africa Europe and North America The essays contrast large countries India Indonesia with small Ireland newly independent Slovenia with established U S A developed Canada with developing Mexico South Africa capitalist U S A with formerly communist Russia monolingual Sweden with multilingual Belgium Canada and countries with stable historical boundaries Sweden with those whose borders have shifted Germany The essays also explore such sociopolitical issues as the polarization of language groups the importance of religion the invisibility of ethnic minorities the redrawing of geographical borders changes in ideology and the dismantling of colonial legacies Finally they examine such common problems of history writing as types of evidence periodization canonization styles of narrative and definitions of key terms Writing and Rewriting National Theatre Histories

will be of special interest to students and scholars of theatre cultural studies and historiography **Theatreland** Paul Ibell, 2009-01-05 Covering the five centuries from Shakespeare's Bankside playhouses to today's West End Paul Ibell's Theatreland explores the history and current state of the London stage taking the reader through the streets and alleyways of the theatre capital of the world London's theatre district is quite literally built on the past Although the book celebrates this and the artistic achievements that still resonate today it also emphasises that theatre is an art form that can only survive and flourish through fresh talent new work and constant reinterpretation of old classics Through a series of entertaining and engaging chapters on themes personalities and trends Theatreland reflects the effortless co existence between past and present that is such a feature of London's theatre world and shows how actors and producers playwrights and publicists theatre historians and modern architects choreographers critics and customers all play their part in ensuring that London remains the theatre capital of the world Theatreland brings back to life the generations of actors impresarios princes and playwrights who created and shaped this cityscape and describes how the 21st century theatre industry continues to develop and change Playwriting Effiong Johnson, 2011-02-16 Summary The Nigerian theatre milieu is trapped in a cobweb of strangulating strings Little wonder therefore that its growth has been impaired over the years The numerous multi tribal thrusts in Nigeria disallow the full growth and development of theatre forms and trends The university and other degree awarding institutions engaged in theatre studies have not carved out uniquely distinguishing styles that can be said to be theirs The Nigerian theatre makers themselves are not style driven and technique creating An ideal repertory of form can hardly be identified with them in a sustainable manner The National Theatre set up as a symbol of the nation's cultural pride now stands as a totem for the nation's creative shame The state owned Cultural Centre Boards are devoid of objectives in focused cultural promotions Many graduates of the arts prefer other creative businesses A few die hards are bedeviled by frustrating dilemmas as businessmen refuse to patronise theatre because they consider it a wasteful venture while international agencies shun it because of its profit making outlook The Detroit Educational Bulletin Detroit (Mich.). Dramaturgy to Make Visible Peter Eckersall, 2024-06-14 This book argues that dramaturgy makes things visible and does so in two distinct and interrelating ways creative processes and formal elements of performance are rendered visible and readable and performance dramaturgy becomes an expanded practice in which performance is a locus for creating wide ranging events and activities This exploration defines dramaturgy as a perceptibly transforming agency in the construction presentation and reception of contemporary performance and it shows how contemporary performance has an intrinsic dramaturgical aspect whose proliferation of dramaturgical practices has led to a far reaching reinvention of what contemporary theatre is In doing so this book deals with a careful selection of performance practices including theatrical adaptations new media dramaturgy contemporary dance installation performance postdramatic theatre visionary works by auteurs and revivals of well known stage shows This study will be of great interest to students and scholars in theater studies performance studies cultural studies curating and dance scholarship
