Making A Difference Men And Women In The Workplace:

Making a Living, Making a Difference Maria Ågren, 2017 Using innovative digital humanities research yoked to a specially built database of sources *Making a Living Making a Difference* revises many received opinions about the history of gender and work in Europe through analysis of the micro patterns of early modern life Back cover **Women's earnings work patterns partially explain difference between men's and women's earnings.** , 2003 **Strengthening the Middle Class** United States. Congress. House. Committee on Education and Labor, 2007 *Equal Pay for Equal Work?* United States. Congress. Joint Economic Committee, 2009 *Making All the Difference* Martha Minow, 2016-10-01 Should a court order medical treatment for a severely disabled newborn in the face of the parents refusal to authorize it How does the law apply to a neighborhood that objects to a group home for developmentally disabled people Does equality mean treating everyone the same even if such treatment affects some people adversely Does a state requirement of employee maternity leave serve or violate the commitment to gender equality Martha Minow takes a hard look at the way our legal system functions in dealing with people on the basis of race gender age ethnicity religion and disability Minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Exploring the historical sources of ideas about difference she offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different She argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference Minow is passionately interested in the people different people whose lives are regularly mis shaped and mis directed by the legal system s ways of handling them Drawing on literary and feminist theories and the insights of anthropology and social history she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it Education for handicapped children conflicts between job and family responsibilities bilingual education Native American land claims these are among the concrete problems she discusses from a fresh angle of vision Minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine a self seen as either separate and autonomous or else disabled and incompetent in some way In contrast she regards the self as being realized through connection capable of shaping an identity only in relationship to other people She shifts the focus for problem solving from the different person to the relationships that construct that difference and she proposes an analysis that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection The meanings of many differences can change when people locate and revise their relationships to difference she asserts The student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access Her book evaluates contemporary legal theories and reformulates legal rights for women children persons with disabilities and others historically identified as different Here is a powerful voice for change speaking to issues that permeate

our daily lives and form a central part of the work of law By illuminating the many ways in which people differ from one another this book shows how lawyers political theorist teachers parents students every one of us can make all the difference

Biology at Work Kingsley R. Browne, 2002-06-06 Does biology help explain why women on average earn less money than men Is there any evolutionary basis for the scarcity of female CEOs in Fortune 500 companies According to Kingsley Browne the answer may be yes Biology at Work brings an evolutionary perspective to bear on issues of women in the workplace the glass ceiling the gender gap in pay sexual harassment and occupational segregation While acknowledging the role of discrimination and sexist socialization Browne suggests that until we factor real biological differences between men and women into the equation the explanation remains incomplete Browne looks at behavioral differences between men and women as products of different evolutionary pressures facing them throughout human history Womens biological investment in their offspring has led them to be on average more nurturing and risk averse and to value relationships over competition Men have been biologically rewarded over human history for displays of strength and skill risk taking and status acquisition These behavioral differences have numerous workplace consequences Not surprisingly sex differences in the drive for status lead to sex differences in the achievement of status Browne argues that decision makers should recognize that policies based on the assumption of a single androgynous human nature are unlikely to be successful Simply removing barriers to inequality will not achieve equality as women and men typically value different things in the workplace and will make different workplace choices based on their different preferences Rather than simply putting forward the nature side of the debate Browne suggests that dichotomies such as nature nurture have impeded our understanding of the origins of human behavior Through evolutionary biology we can understand not only how natural selection has created predispositions toward certain types of behavior but also how the social environment interacts with these predispositions to produce observed behavioral patterns

Sociology of Organizations Mary Godwyn, Jody Hoffer Gittel, 2012 A collection of both classic and contemporary studies of organizations that is designed around competing theoretical frameworks this book examines organizations with attention to structure and objectives interactions among members and among organizations the relationship between the organization and its environment and the social significance or social meaning of the organization

Parliamentary Papers Great Britain. Parliament. House of Commons,1894 **Gender and Discourse** Ruth Wodak,1997-10-03 The contributors to this collection offer an essential introduction to the ways in which feminist linguistics and critical discourse analysis have contributed to our understanding of gender and sex By examining how these perspectives have been applied to these concepts the contributors provide both a review of the literature as well as an opportunity to follow the most recent debates in this area Gender and Discourse brings together European American and Australian traditions of research Through an analysis of a range of real data the contributors demonstrate the relevance of these theoretical and methodological insights for gender research in particular and social practice in general Conceptualising Women's Working Lives Wendy Patton,2013-04-20 Theoretical work on the career development of women has travelled a journey from critique to creation Early work responded to and criticised a literature that focused on theorising male roles in a workplace that was conceptualised as providing vertical career paths primarily for middle class males More recently theorists are creating new constructions and frameworks to enable a more holistic understanding of career applicable to both women and men These constructions include broadening the discussion from women s careers to women s working lives This is the fifth book in the Sense Publishers Career Development Series It features the vibrant work of contributors from around the world writing in the field of women s working lives It emphasises the need to explore theoretical connections and understandings in order to facilitate a more holistic and inclusive understanding of women s working lives The writers in the current volume acknowledge the changing roles of women in both public and private spheres Women s roles in paid work are changing both in their nature and type of engagement In addition with an ageing population women s roles in care work are

increasingly being extended from child care to aged care This book provides a history of theorising about women s careers in addition to presenting a focus on current empirical and theoretical work which contributes to understandings of women s working lives It s contributions both map the current discourse and challenge future work to extend the boundaries of that discourse **Research on Women's Issues in Transportation, Report of a Conference** ,2006 **Routledge**
