## **Making Americans:**

Making Americans Jessica Lander, 2022-10-04 2024 recipient of the George Orwell Award for Distinguished Contribution to Honesty and Clarity in Public Language given by the National Council of Teachers of English *Making Americans* shines a light on the barriers that immigrant students in the US face and shares some inspiring stories about students who have overcome them Bill Gates A landmark work that weaves captivating stories about the past present and personal into an inspiring vision for how America can educate immigrant students Setting out from her classroom Jessica Lander takes the reader on a powerful and urgent journey to understand what it takes for immigrant students to become Americans A compelling read for everyone who cares about America's future *Making Americans* brims with innovative ideas for educators and policy makers across the country Lander brings to life the history of America's efforts to educate immigrants through rich stories including these The Nebraska teacher arrested for teaching an eleven year old boy in German who took his case to the Supreme Court The California families who overturned school segregation for Mexican American children The Texas families who risked deportation to establish the right for undocumented children to attend public schools She visits innovative classrooms across the country that work with immigrant origin students such as these A school in Georgia for refugee girls who have been kept from school by violence poverty and natural disaster Five schools in Aurora Colorado that came together to collaborate with community groups businesses a hospital and families to support newcomer children A North Carolina school district of more than 100 schools who rethought how they teach their immigrant origin students She shares inspiring stories of how seven of her own immigrant students created new homes in America including the following The boy who escaped Baghdad and found a home in his school's ROTC program The daughter of Cambodian genocide survivors who dreamed of becoming a computer scientist The orphaned boy who escaped violence in the Democratic Republic of the Congo and created a new community here *Making Americans* is an exploration of immigrant education across the country told through key historical moments current experiments to improve immigrant education and profiles of immigrant students *Making Americans* is a remarkable book that will reshape how we all think about nurturing one of America's greatest assets the newcomers who enrich this country with their energy talents and drive **Making**

**Americans** Gary D. Schmidt, 2013-12 *Making Americans* is a study of a time when the authors and illustrators of children's books consciously set their eyes on national and international sights with the hope of bringing the next generation into a full sense of citizenship Schmidt examines the literature for young people published during a momentous period in our nation's past and documents in detail its role as an instrument of nation building and social reform A thought provoking contribution to our understanding of children's books as cultural transmitters and transformers **The Making of the American**

**Landscape** Michael P. Conzen, 2014-06-03 The only compact yet comprehensive survey of environmental and cultural forces that have shaped the visual character and geographical diversity of the settled American landscape The book examines the

large scale historical influences that have molded the varied human adaptation of the continent's physical topography to its needs over more than 500 years. It presents a synoptic view of myriad historical processes working together or in conflict and illustrates them through their survival in or disappearance from the everyday landscapes of today. **Mexicans in the Making of America** Neil Foley, 2014-10-06 America has always been a composite of racially blended peoples never a purely white Anglo Protestant nation. The Mexican American historian Neil Foley offers a sweeping view of the evolution of Mexican America from a colonial outpost on Mexico's northern frontier to a twenty first century people integral to the nation they have helped build. **Making Americans** Jessica Lander, 2023-10-03 Making Americans shines a light on the barriers that immigrant students in the US face and shares inspiring stories about students who have overcome them. Bill Gates A landmark work that weaves captivating stories about the past present and personal into an inspiring vision for how America can educate immigrant students. Setting out from her classroom Jessica Lander takes the reader on a powerful and urgent journey to understand what it takes for immigrant students to become Americans. A compelling read for everyone who cares about America's future. Making Americans brims with innovative ideas for educators and policy makers across the country. Lander brings to life the history of America's efforts to educate immigrants through rich stories including these: The Nebraska teacher arrested for teaching an eleven year old boy in German who took his case to the Supreme Court. The California families who overturned school segregation for Mexican American children. The Texas families who risked deportation to establish the right for undocumented children to attend public schools. She visits innovative classrooms across the country that work with immigrant origin students such as these: A school in Georgia for refugee girls who have been kept from school by violence poverty and natural disaster. Five schools in Aurora Colorado that came together to collaborate with community groups businesses a hospital and families to support newcomer children. A North Carolina school district of more than 100 schools who rethought how they teach their immigrant origin students. She shares inspiring stories of how seven of her own immigrant students created new homes in America including the following: The boy who escaped Baghdad and found a home in his school's ROTC program. The daughter of Cambodian genocide survivors who dreamed of becoming a computer scientist. The orphaned boy who escaped violence in the Democratic Republic of the Congo and created a new community here. Making Americans is an exploration of immigrant education across the country told through key historical moments current experiments to improve immigrant education and profiles of immigrant students. Making Americans is a remarkable book that will reshape how we all think about nurturing one of America's greatest assets the newcomers who enrich this country with their energy talents and drive. **The Making of America** Robert Marion La Follette, William Matthews Handy, 1905 **The Oxford Handbook of American Immigration and Ethnicity** Ronald H. Bayor, 2016-06-01 Scholarship on immigration to America is a coin with two sides it asks both how America changed immigrants and how they changed America. Were the immigrants uprooted from their ancestral homes leaving everything behind or were they

transplanted bringing many aspects of their culture with them Although historians agree with the transplantation concept the notion of the melting pot which suggests a complete loss of the immigrant culture persists in the public mind The Oxford Handbook of American Immigration and Ethnicity bridges this gap and offers a comprehensive and nuanced survey of American racial and ethnic development assessing the current status of historical research and simultaneously setting the goals for future investigation Early immigration historians focused on the European migration model and the ethnic appeal of politicians such as Fiorello La Guardia and James Michael Curley in cities with strong ethno political histories like New York and Boston But the story of American ethnicity goes far beyond Ellis Island Only after the 1965 Immigration Act and the increasing influx of non Caucasian immigrants scholars turned more fully to the study of African Asian and Latino migrants to America This Handbook brings together thirty eminent scholars to describe the themes methodologies and trends that characterize the history and current debates on American immigration The Handbook's trenchant chapters provide compelling analyses of cutting edge issues including identity whiteness borders and undocumented migration immigration legislation intermarriage assimilation bilingualism new American religions ethnicity related crime and pan ethnic trends They also explore the myth of model minorities and the contemporary resurgence of anti immigrant feelings A unique contribution to the field of immigration studies this volume considers the full racial and ethnic unfolding of the United States in its historical context

**Fighting to Become Americans** Riv-Ellen Prell, 2000-03-03 Her exaggerated coiffure with its imitation curls and soaped curves that stick out at the side of the head like fantastic gargoyles is an offense to the eye Her plated gold jewelry with paste stones reveals its cheapness by its very extravagance This description of a ghetto girl was printed in the American Jewish News in 1918 but with slight variation it might easily be mistaken for a description of our current pernicious and pejorative stereotype of Jewish womanhood the JAP What are the origins of these stereotypes And even more important why would an American ethnic group use racist terms to describe itself Riv Ellen Prell asks these compelling questions as she observes how deeply anti Semitic stereotypes infuse Jewish men's and women's views of one another in this history of Jewish acculturation in the twentieth century Woodrow Wilson and American Internationalism

Lloyd E. Ambrosius, 2017-06-16 In this new work one of the world's leading historians of US foreign relations Lloyd E Ambrosius addresses enduring questions about American political culture and statecraft by focusing on President Woodrow Wilson and the United States in international relations during and after World War I Updated to include recent historiography as well as an original introduction and conclusion Woodrow Wilson and American Internationalism features nine different essays closely linked together by the themes of Wilson's understanding of Americanism his diplomacy to create a new world order in the wake of World War I and the legacy of his foreign policy Examining the exclusive as well as universal dimensions of Wilsonianism Ambrosius assesses not only Wilson's role during his presidency but also his legacy in defining America's place in world history Speaking to the transnational turn in American history Ambrosius shows how

Wilson's liberal internationalist vision of a new world order would shape US foreign relations for the next century

*Business America*, 1981 Includes articles on international business opportunities      *Whom We Shall Welcome* Danielle Battisti, 2019-03-05 *Whom We Shall Welcome* examines World War II immigration of Italians to the United States an understudied period in Italian immigration history Danielle Battisti looks at efforts by Italian American organizations to foster Italian immigration along with the lobbying efforts of Italian Americans to change the quota laws While Italian Americans and other white ethnics had attained virtual political and social equality with many other groups of older stock Americans by the end of the war Italians continued to be classified as undesirable immigrants Her work is an important contribution toward understanding the construction of Italian American racial ethnic identity in this period the role of ethnic groups in U S foreign policy in the Cold War era and the history of the liberal immigration reform movement that led to the 1965 Immigration Act *Whom We Shall Welcome* makes significant contributions to histories of migration and ethnicity post World War II liberalism and immigration policy      **The State of the American Mind: Stupor and Pathetic Docility Volume II** Amechi Okolo, 2010-06-11 This book *The State of the American Mind: Stupor and Pathetic Docility Volume One* begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of America's history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Harvard educated President Obama famously told us

in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

The Making of America ,1907      **Film Propaganda and American Politics** James Combs,Sara T. Combs,2013-12-17 Originally published in 1994 this important book traces the rise of film propaganda in the 20th Century discussing specifically how film can be used to manipulate public perception and opinions Two distinct areas are covered war propaganda including feature and documentary films regarding warfare and civilian propaganda including films that address a variety of political subjects Although the focus is American film and American politics this book offers insights for all those interested in the affect of film on the minds of citizens of any country or state

The War for Independence and the Transformation of American Society Harry M. Ward,2014-04-08 Spanning the period 1775 to 1783 this book is a synthesis which assesses the impact of war upon the American people

**American Detox** Kerri Kelly,2022-06-07 An Amazon Editor s Pick in Best Nonfiction An intimate honest accountable and thorough invitation into healing adrienne maree brown author of Pleasure Activism This book is a powerhouse Ashley Judd The myth of wellness is a lie And until we learn to confront and dismantle its toxic systems we can t ever be well Better stronger healthier whole the wellness industry promises us that with enough intention investment and positive thinking we ll unlock our best selves and find meaning and purpose in a chaotic and confusing world The problem It s a lie The industry soars upwards of 650 billion a year but we re still isolated insecure and inequitable Wellness isn t making us well it s making us worse It diverts our attention and holds us back from asking the questions that do help us heal Who gets to be well in America Who s harmed and who s left out And what s the real life cost of our obsession with self improvement To be truly well we don t need juice fasts or yoga fads We need to detox from a culture rooted in perfectionism white supremacy and individualism and move toward a model that embodies mutual responsibility and extends beyond self help to collective care In American Detox organizer yoga activist wellness disruptor and CTZNWELL founder Kerri Kelly sounds the wake up call It s time to commit to the radical work of unlearning the toxic

messages we've been fed to resist, disrupt and dream better futures of what wellness really means      *The American Musical Landscape* Richard Crawford, 1993-10-15 In this refreshingly direct and engaging historical treatment of American music and musicology Richard Crawford argues for the recognition of the distinct and vital character of American music. What is that character? How has musical life been supported in the United States and how have Americans understood their music? Exploring the conditions within which music has been made since the time of the American Revolution Crawford suggests some answers to these questions. Surveying the history of several musical professions in the United States: composing, performing, teaching and distributing music Crawford highlights the importance of where the money for music comes from and where it goes. This economic context is one of his book's key features and gives a real-life view that is both fascinating and provocative. Crawford discusses interconnections between classical and popular music using New England psalmody, nineteenth-century songs, Duke Ellington and George Gershwin to illustrate his points. Because broad cultural forces are included in this unique study anyone interested in American history and American Studies will find it as appealing as will students and scholars of American music      *Johnny Cash and the Paradox of American Identity* Leigh H. Edwards, 2009-02-25 Throughout his career Johnny Cash has been depicted and has depicted himself as a walking contradiction: social protestor and establishment patriot, drugged wildman and devout Christian, crusader, rebel, outlaw, hillbilly, thug and elder statesman. Leigh H. Edwards explores the allure of this paradoxical image and its cultural significance. She argues that Cash embodies irresolvable contradictions of American identity that reflect foundational issues in the American experience such as the tensions between freedom and patriotism, individual rights and nationalism, the sacred and the profane. She illustrates how this model of ambivalence is a vital paradigm for American popular music and for American identity in general. Making use of sources such as Cash's autobiographies, lyrics, music liner notes and interviews Edwards pays equal attention to depictions of Cash by others such as Vivian Cash's publication of his letters, to her documentaries and music journalism about him, *Walk the Line* and fan club materials found in the archives at the Country Music Foundation in Nashville to create a full portrait of Cash and his significance as a cultural icon      **Built Environment and Population Health in Small-Town America** Mahbub Rashid, 2024-03-12 This book describes the population health concerns of small town America and how these concerns are affected by the unique characteristics of these places focusing on the built environment      **Ethnic Pride, American Patriotism** June Granatir Alexander, June Alexander, 2008-11-20 Creating a community that respected tradition but adapted to new circumstances
