Johnson, 2009-10-15 Making Connections in Elementary and Middle School Social Studies Second Edition is the best text for teaching primary school teachers how to integrate social studies into other content areas This book is a comprehensive reader friendly text that demonstrates how personal connections can be incorporated into social studies education while meeting the National Council for the Social Studies' thematic pedagogical and disciplinary standards Praised for its wealth of strategies that go beyond social studies teaching including classroom strategies pedagogical techniques activities and lesson plan ideas this book examines a variety of methods both novice and experienced teachers alike can use to integrate social studies into other content areas Beginning To Play Forbes, Ruth, 2004-08-01 Beginning to Play

explores the young child's right to a high quality multi sensory play environment where play really can begin. It builds on Goldschmied's concept of Treasure Basket play which involves a wide variety of everyday objects gathered together to stimulate all five senses of babies and young children. The book features detailed observations of babies beginning to play at and beyond the treasure basket. These observations support readers in offering rich play materials and experiences.

Teaching Children Responsible Behavior Sandy Hagenbach, 2011. Physical education class is a great setting for teaching children social skills and Teaching Children Responsible Behavior A Complete Toolkit is an easy to use resource to impart those skills to elementary school aged children. Teaching Children Responsible Behavior will help kids learn that their choices and actions have consequences, acquire social skills to help them achieve their potential and discover how to show respect, challenge themselves and be good friends and teammates as they work toward common goals. This book and CD ROM package created by veteran teacher Sandy Hagenbach defines three levels for teaching responsible behavior and provides unit plans and tools to bring those lessons to life. This program is based on Don Hellison's levels of responsibility but is adapted to work specifically with younger children. The levels focus on respect, challenge and teamwork and those concepts are taught and reinforced through several resources: Children's stories that introduce and reinforce the three key concepts; Ready to use activities that get kids moving and thinking; Sample block plans that show how you might use the resources; A CD ROM with resources you can use to supplement your class activities as you implement all three levels. The CD offers the illustrated children's stories in PDF and PowerPoint format; articles that explore physical activity and behavior issues with follow up questions; letters to parents about the focus and concepts of each unit; resources for guest teachers; worksheets and activities that can be used as homework or informal assessments; and posters that reinforce each unit's theme and concept and generate discussion about respect, challenge and teamwork. Part I of the book explores the issues surrounding teaching responsible behavior: how to create a positive environment and how to assess student progress as well as your own. Part II lays out the unit plans for the three key areas of responsible behavior. Each unit contains a children's story that you can use to introduce a level: Respect, Challenge or Teamwork to your students. Each story uses a physical activity setting and is written specifically for physical education teachers as a tool to help them reach their learners. Each unit closes with a list of NASPE standards and sample performance outcomes that the unit addresses as well as child friendly complementary I can statements. The book and CD ROM package is set up as a toolkit to allow you to use all the units or choose the units that fit best with your program. Teaching Children Responsible Behavior is a flexible package that will help you better manage your classes, increase students' time on task, shape positive behavior among your students and help them make responsible choices in and out of the classroom. Use it to create a culture of respect in your classroom.

*Implementing Response-to-Intervention to Address the Needs of English-Language Learners* Holly S. Hudspeth-Niemi, Mary Lou Conroy, 2013-06-26. There is considerable concern surrounding the complex issue of how to meet the learning needs of English language learners within

general and special education programs Implementing Response to Intervention to Address the Needs of English Language Learners increases school psychologists knowledge of intervention strategies related to ELLs through its examination of the challenges associated with evaluating ELLs and by providing a collaborative framework to enhance educational identification and placement in special education It accomplishes this by incorporating research based intervention approaches for ELLs and offering a comprehensive guide to the processes and tools that school teams should consider when utilizing a response to intervention model to support the academic and behavioral needs of ELLs With a strong focus on alternative assessment collaboration and parental involvement this volume is a definitive touchstone in the quest to provide culturally responsive pedagogy and appropriate adapted classroom instruction for English language learners of various proficiency levels
