**Making Fathers Pay** David L. Chambers,1979-09 A couple with children divorce A court orders the father to pay child support but the father fails to pay This pattern repeats itself thousands of times every year in nearly every American state Making Fathers Pay is David L Chambers s study of the child support collection process in Michigan the state most successful in inducing fathers to pay He begins by reporting the perilous financial problems of divorced mothers with children problems faced even by mothers who work full time and receive child support The study then examines the characteristics of fathers who do and do not pay support and the characteristics of collections systems that work Chambers s findings are based largely on records of fathers support payments in twenty eight Michigan counties some of which jail hundreds of men for nonpayment every year Chambers finds that in places well organized to collect support jailing nonpayers seems to produce higher payments from men jailed and from men not jailed but only at a high social cost He also raises grave doubts about the fairness of the judicial process that leads to jail While Chambers s total sample includes 12 000 men he interweaves through his text moving interviews with members of one family caught in the painful predicaments that men women and children face upon separation To increase support for children at lower social costs Chambers advocates a national system of compulsory deductions from the wages of non custodial parents who earn more than enough for their own subsistence

Domestic Contradictions Priya Kandaswamy, 2021-07-06 In *Domestic Contradictions* Priya Kandaswamy analyzes how race class gender and sexuality shaped welfare practices in the United States alongside the conflicting demands that this system imposed upon Black women She turns to an often neglected moment in welfare history the advent of the Freedmen s Bureau during Reconstruction and highlights important parallels with welfare reform in the late twentieth century Kandaswamy demonstrates continuity between the figures of the vagrant and welfare queen in these time periods both of which targeted Black women These constructs upheld gendered constructions of domesticity while defining Black women s citizenship in terms of an obligation to work rather than a right to public resources Pushing back against this history Kandaswamy illustrates how the Black female body came to represent a series of interconnected dangers to white citizenship heteropatriarchy and capitalist ideals of productivity and how a desire to curb these threats drove state policy In challenging dominant feminist historiographies Kandaswamy builds on Black feminist and queer of color critiques to situate the gendered afterlife of slavery as central to the historical development of the welfare state

**The New Palgrave Dictionary of Economics and the Law** Peter Newman, 2016-04-30 A great deal of economics is about law the functioning of markets property rights and their enforcement financial obligations and so forth yet these legal aspects are almost never addressed in the academic study of economics Conversely the study and practice of law entails a significant understanding of economics yet the drafting and administration of laws often ignore economic principle The New
