Making Government Work:

Making Government Work Ernest F. Hollings, Kirk Victor, 2008 This book describes a career politician's pragmatic remedies for broken government drawn from a half century of political leadership experience Performance is better than promise has long been the motto of Ernest F. Fritz Hollings former governor of South Carolina and 6 term U S Senator In this political autobiography of his 50 year career in public service Hollings takes to task our flawed political machine and pulls from his own experiences compelling and often colorfully candid accounts how one makes government work in spite of itself Confrontational at times toward those individuals and issues he cites as to blame for deadlocking government and putting America in the ditch Hollings proves through his crystal clear prose he is deeply committed to improving our system of government strengthening regulations on free trade countering dependence on wooing campaign contributions and enhancing our communication and education systems to better compete in an information driven global market Hollings details specific instances from his past of moments when bold leadership and smart use of resources and authority led to positive differences in the lives of Americans It is his mission through this volume to reinvigorate a floundering system and call good people and good ideas back into the service of America's future **Making Government Work** ,1993

Office of Technology Assessment,1993 This report published in its entirety OTA TCT 578 and in a summary form OTA TCT 579 containing only the first chapter of the complete report focuses on key topics and issues that are central to the successful use of electronic delivery by government The review conducted by the Office of Technology Assessment concludes that the movement toward electronic delivery of government services is accelerating but that many factors must be considered The greatest risks of electronic delivery are overlooking the human element and users needs which would further widen the gap between the technologically literate and the technologically illiterate and failing to capitalize on all the opportunities that partnerships among government agencies and the private sector could provide Changes that will be required in federal management are outlined and options for successful implementation of electronic delivery are sketched Many rely on the amplification of existing structures Five appendixes complement the complete report including a list of the 11 boxes 5 figures and 22 tables that illustrate the discussion and lists of acronyms and terms contributors field study participants and contractor reports The summary volume contains four tables and two boxes SLD
