Vollständiges Deutsch-Englisches Wörterbuch Theodor Arnold,1783 A Theological Commentary to the Midrash: Leviticus Rabbah Jacob Neusner,2001 This theological commentary to the Rabbinic Midrash explores a simple proposition in three parts I The reading of Scripture by principal parts of the Rabbinic Midrash is formed by compositions and composites that are animated by a cogent theological system II These primary components of the Midrash compilations further are in part aimed at systematic demonstrations of theorems of a theological character III While forming a principal part of a large theological structure and system each document is unique This commentary in its concluding chapter presents what is common to the animating theology of Rabbinic Judaism in all its documentary components and what is unique to Leviticus Rabbah *A dictionary of the English language: together with a history of the language, and an English grammar. disputes not only indicate the range of consensus but bring to expression conflicting alternative theories that claim equal validity but contradict one another Third in some presentations of the law and in all presentations of theology where disputes occur disputes simply gloss details in the application of accepted principles They form a part of the exercise of legal or theological exegesis filling in gaps with alternative facts The print edition is available as a set of two volumes
