Merchants Midwives Laboring Women:

Merchants, Midwives, and Laboring Women Diane C. Vecchio, 2006 Diane C Vecchio's unique study considers the work experiences of Italian immigrant women and their daughters in the previously unexamined regions of Milwaukee Wisconsin and Endicott New York during the turn of the twentieth century Using Italian and American sources and rich oral histories this study reveals that women in Italy had economic responsibilities that often included work experiences outside of the home including jobs as midwives and businesswomen Demonstrating the regional variation of Italian women's work as well as the skills they transplanted to America balances the image of inexperienced and low skilled labourers that dominates scholarship on Italian working women Vecchio's research on Endicott sheds light on the gendered nature of life in a company town governed by welfare paternalism while her research on Milwaukee emphasizes how Italian immigrant women turned to small business enterprise when local opportunities for wage earning were limited **Milwaukee's Italian Heritage**

Anthony M. Zignego, 2009-10-01 The shores of Lake Michigan might seem a far cry from the coastline of the Mediterranean even for a country famous for its opera singers Nevertheless enough Italians responded to the call and returned home to repeat it confidently to brothers brides and strangers to create a thriving community in Milwaukee Historians often emphasize Milwaukee's German heritage content to relegate the story of Italian migration to New York or Chicago but Anthony Zignego passionately explores the ways in which Italians shaped the Brew City and were shaped by it in turn From the Gardetto family to the enterprising women of the Third Ward to Festa Italiana Zignego presents a portrait of the immigrant experience with personal stories and interviews with ordinary immigrants and Milwaukeeans explaining the community's traditions and dispelling some of its myths Milwaukee's Italian Heritage highlights the struggles and triumphs that have always made immigration an opening clause and concluding question in the American story **International**

Pennsylvania's Anthracite Region, 1880-2000 Karol K. Weaver, 2015-10-13 While much has been written about immigrant traditions music food culture folklore and other aspects of ethnic identity little attention has been given to the study of medical culture until now In *Medical Caregiving and Identity in Pennsylvania's Anthracite Region 1880-2000* Karol Weaver employs an impressive range of primary sources including folk songs patent medicine advertisements oral history interviews ghost stories and jokes to show how the men and women of the anthracite coal region crafted their gender and ethnic

identities via the medical decisions they made Weaver examines communities relationships with both biomedically trained physicians and informally trained medical caregivers and how these relationships reflected a sense of Americanness She uses interviews and oral histories to help tell the story of neighborhood healers midwives Pennsylvania German powwowers medical self help and the eventual transition to modern day medicine Weaver is able to show not only how each of these methods of healing was shaped by its patrons and their backgrounds but also how it helped mold the identities of the new Americans who sought it out

Robber Barons and Wretched Refuse Robert F. Zeidel,2020-04-15 *Robber Barons and Wretched Refuse* explores the connection between the so called robber barons who led American big businesses during the Gilded Age and Progressive Era and the immigrants who composed many of their workforces As Robert F Zeidel argues attribution of industrial era class conflict to an alien presence supplements nativism a sociocultural negativity toward foreign born residents as a reason for Americans dislike and distrust of immigrants And in the era of American industrialization employers both relied on immigrants to meet their growing labor needs and blamed them for the frequently violent workplace contentions of the time Through a sweeping narrative Zeidel uncovers the connection of immigrants to radical isms that gave rise to widespread notions of alien subversives whose presence threatened America s domestic tranquility and the well being of its residents Employers rather than looking at their own practices for causes of

workplace conflict wontedly attributed strikes and other unrest to aliens who either spread pernicious foreign doctrines or fell victim to their siren messages These characterizations transcended nationality or ethnic group applying at different times to all foreign born workers Zeidel concludes that ironically stigmatizing immigrants as subversives contributed to the passage of the Quota Acts which effectively stemmed the flow of wanted foreign workers Post war employers argued for preserving America s traditional open door but the negativity that they had assigned to foreign workers contributed to its closing

complex interactions that influenced both global trade and their community economies Zanonì conveys the complicated and often fraught values and meanings that surrounded food meals and shopping A groundbreaking interdisciplinary study Migrant Marketplaces offers a new perspective on the linkages between migration and trade that helped define globalization in the late nineteenth and early twentieth centuries **Solving Education's Problems Effectively** Gerard

Giordano,2009-03-16 Rich in practical information about the history of American education Solving Education s Problems Effectively encourages readers to analyze prioritize and synthesize historical information by applying it to current situations Using more than thirty case studies Giordano suggests solutions to issues that plague educators across the nation from textbook quality to gender race and religion biases The case studies are accompanied by activities to prompt educators to higher levels of thinking about the problems they face A Crowded Hour KEVIN ABING,2017-06-25 Fatal Denial Annie Menzel,2024-05-28 Fatal Denial argues that over the past 150 years US health authorities explanations of and interventions into Black infant mortality have been characterized by the biopolitics of racial innocence a term describing the institutionalized mechanisms in health care and policy that have at once obscured enabled and perpetuated systemic infanticide by blaming Black mothers and communities themselves Following Black feminist scholarship demonstrating that the commodification and theft of Black women s reproductive bodies labors and care is foundational to US racial capitalism Annie Menzel posits that the polity has made Black infants vulnerable to preventable death Drawing on key Black political thought and praxis around infant mortality from W E B Du Bois and Mary Church Terrell to Black midwives and birth workers this work also tracks continued refusals to acknowledge this routinized reproductive violence illuminating both a rich history of care and the possibility of more transformative futures **Farms, Factories, and Families** Anthony V.

Riccio,2014-05-08 Often treated as background figures throughout their history Italian women of the lower and working classes have always struggled and toiled alongside men and this did not change following emigration to America Through numerous oral history narratives Farms Factories and Families documents the rich history of Italian American working women in Connecticut As farming women they could keep up with any man As entrepreneurs they started successful businesses They joined men on production lines in Connecticut s factories and sweatshops and through the strength of the neighborhood networks they created they played a crucial role in union organizing Empowered as foreladies union officials and shop stewards they saved money for future generations of Italian American women to attend college and achieve dreams they themselves could never realize The book opens with the voices of elderly Italian American women who reconstruct daily life in Italy s southern regions at the turn of the twentieth century Raised to be caretakers and nurturers of families these women lived by the culturally claustrophobic dictates of a patriarchal society that offered them few choices The storytellers of Farms Factories and Families reveal the trajectories of immigrant women who arrived in Connecticut with more than dowries in their steam trunks the ability to face adversity with quiet inner strength the stamina to work tirelessly from dawn

to dusk the skill to manage the family economy and adherence to moral principles rooted in the southern Italian code of behavior Second and third generation Italian American women who attended college and achieved professional careers on the wings of their Italian born mothers and grandmothers have not forgotten their legacy and though Italian American immigrant women lived by a script they did not write Farms Factories and Families gives them the opportunity to tell their own stories in their own words

Rosina, the Midwife Jessica Kluthe, 2013 Finalist for a 2014 Alberta Literary Award Between 1870 and 1970 26 million Italians left their homeland and travelled to places like Canada Australia and the United States in search of work Many of them never returned to Italy Against this historic backdrop comes the story of Rosina a Calabrian matriarch who worked as a midwife in an area where only one doctor served three villages She was also the only member of the Russo family to remain in Italy after the mass migration of the 1950s Written by Rosina's great great granddaughter Rosina the Midwife is a charming memoir that is at once a Canadian story and an Italian one Through Kluthe's meticulous research and great insight we see her great grandfather Generoso labouring through the harsh Edmonton winter in order to buy passage to Canada for his wife and children we glimpse her grandmother Rose huddled in a third class cabin sick from the motion of the boat and we watch teary eyed as her great great grandmother Rosina is forced to say goodbye one by one to the people she loves

According to Baba Stacey Zembrzycki, 2014-03-05 As a child Stacey Zembrzycki listened to her baba's stories about Sudbury's small but polarized Ukrainian community and about what it was like growing up ethnic during the Depression According to Baba discloses with honesty and respect what happened when Stacey tried to capture the community's experiences through oral history research Baba looms large in the narrative wrestling authority in the interview process away from her granddaughter and then eventually coming to share it Together the two women lay the groundwork not only for an insightful and deeply personal social history of Sudbury's Ukrainian community but also for truly collaborative oral history research and writing

Practice of U.S. Women's History S. J. Kleinberg,Eileen Boris,Vicki Ruíz,2007 In the last several decades U S women s history has come of age Not only have historians challenged the national narrative on the basis of their rich explorations of the personal the social the economic and the political but they have also entered into dialogues with each other over the meaning of women s history itself In this collection of seventeen original essays on women s lives from the colonial period to the present contributors take the competing forces of race gender class sexuality religion and region into account Among many other examples they examine how conceptions of gender shaped government officials attitudes towards East Asian immigrants how race and gender inequality pervaded the welfare state and how color and class shaped Mexican American women s mobilization for civil and labor rights **Memories of Belonging: Descendants of Italian Migrants to the United States, 1884-Present** Christa Wirth,2015-02-11 Memories of Belonging is a three generation oral history study of the offspring of southern Italians who migrated to Worcester Massachusetts in 1913 Supplemented with the interviewees private documents and working from U S and Italian archives Christa Wirth documents a century of transatlantic migration assimilation and later generation self identification Her research reveals how memories of migration everyday life and ethnicity are passed down through the generations altered and contested while constituting family identities The fact that not all descendants of Italian migrants moved into the U S middle class combined with their continued use of hyphenated identities points to a history of lived ethnicity and societal exclusion Moreover this book demonstrates the extent of forgetting that is required in order to construct an ethnic identity **Journal of Women's History** ,2006
