Reclaiming Reading Richard J. Meyer, Kathryn F. Whitmore, 2012-03-22 Inviting teachers back to the role of reflective advocates for thoughtful reading instruction this book presents theory and pedagogical possibilities to reclaim and build upon the knowledge base that was growing when government mandates scripted commercial programs and high stakes tests took over as the dominant agenda for reading instruction in U.S. public schools Focusing on literacy learners and their teachers lives as literate souls it examines how the teaching of reading can be reclaimed via an intensive reconsideration of five pillars as central to the teaching and learning of reading learning teaching curriculum language and sociocultural contexts Reclaiming Reading articulates the knowledge base that was marginalized or disrupted by legislated and policy intrusions into classrooms and provides practical examples for taking good reading instruction out of the cracks and moving it back to the center of the classroom Explaining what happens in readers' minds as they read and how teachers can design practices to support that process this book encourages teachers to initiate pedagogy that will help them begin or return to the stance of reflective knowledgeable professional decision makers

It's Not "One More Thing" Anne Swenson
Ticknor, Christy Howard, Mikkaka Overstreet, 2021-07-01 Ticknor Howard and Overstreet offer educators insights into the how-tos of culturally responsive pedagogy They build on their experiences and research of CRP to offer vignettes of literacy instruction that may be common in K-12 classrooms These examples are offered as a way to situate how teachers may use research-based and effective literacy practices while ignoring the identities and experiences of their students They disrupt the vignettes using theories and concepts presented in the chapter to make visible how each practice could be reimagined to

integrate more culturally responsive strategies Example lessons and activities are provided in each chapter that offer readers glimpses into CRP thinking and decision making Guiding prompts are also included for readers to use the chapter topic and example lessons to consider ways to be more culturally responsive teachers for their students and in their local communities
