Myocardial Protection By Calcium Antagonists:

Myocardial Protection by Calcium Antagonists Lionel H. Opie, 1994-08-16 About the Book There are vast amounts of new data emerging in the study of calcium antagonist drugs The major issues involved are no longer just the effects of calcium antagonist drugs in angina or hypertension but their possible postinfarct protective effects both to provide prophylaxis and to improve left ventricular function New trials have also changed our thinking One major trial suggested that the use of one of these agents in postinfarct patients with no history of heart failure in the acute infarct stage was not only safe but could confer positive protection from reinfarction and possibly from sudden death Another study also in postinfarct patients but with a different agent has drawn attention to a further unexpected benefit namely improvement of mechanical diastolic function In the area of hypertension the emphasis has shifted to the regression of left ventricular hypertrophy now recognized as an independent risk factor for cardiovascular mortality and to diastolic dysfunction Looking to the future calcium antagonists may exert protection against end stage heart failure by limiting left ventricular hypertrophy and by vascular beneficial effects There is emerging interest that the combination with ACE inhibitors may exert additive effects on control of hypertension and on diabetic hypertensive renal lesions Reviews of Other Books by the Author Drugs for the Heart A gem New England Journal of Medicine The Heart The subjects are brilliantly illuminated and made exciting by excellent line diagrams The Lancet Angiotensin Converting Enzyme Inhibitors Scientific Basis for Clinical Use A milestone British Medical Journal

Myocardial Protection by Calcium Antagonists Lionel H. reference to its protective nature and its use in the treatment of angina Audience Clinicians and basic scientists who have a direct interest in the KATP channel as well as those groups who are interested in the entire concept of myocardial protection and its relationship to academic and clinical medicine **Myocardial Protection** Tomas A.
