Mystery Of Being Volume 2 Faith And Reality:

Israel's Original Sin, Volume II Richard J. Rolwing, 2002-05-20 WAS THE GOD OF JOSHUA THE GOD OF JESUS A relook at modern Israel's roots in ancient Israel salvation history biblical inspiration partial revelation imperfect theology and misguided leaders among Jews Muslims and Christians It asks considering Mohammed Ben Gurion and Harry Truman if Joshua has not had as much influence on western civilization as Jesus What on earth is God doing in the Middle East Do Uncle Sam and his protégé Israel justify divine providence in human history Do victories in war and success in business prove God's blessing and do failures in finance and disasters in health Aids manifest God's displeasure How does Christ's cross theology fit into history politics This book is indeed thoughtful and creative It highlights the need for all of us today to be much more self-critical especially for us Christians to see how domination theology has been a part of our own approach

Fr Dr James Bacik author of *Apologetics and the Eclipse of Mystery* Collected Works of George Grant: 1951-1959 George Parkin Grant, 2000-01-01 A collection of all the important material from the 1950s when philosopher George Grant did his first teaching and writing at Dalhousie University

The Nature of Love, Volume 3 Irving Singer, 2009-02-27 The final volume of Singer's trilogy discusses ideas about love in the work of writers ranging from Kierkegaard Nietzsche and Tolstoy to Freud Proust D H Lawrence Shaw and others in the contemporary world Irving Singer's trilogy *The Nature of Love* has been called majestic New York Times Book Review monumental Boston Globe one of the major works of philosophy in our century Nous wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the third volume Singer examines the pervasive dialectic between optimistic idealism and pessimistic realism in modern thinking about the nature of love He begins by discussing anti-Romantic Romantics focusing on Kierkegaard Nietzsche and Tolstoy influential nineteenth century thinkers whose views illustrate much of the ambiguity and self-contradiction that permeate thinking about love in the last hundred years He offers detailed studies of Freud Proust Shaw D H Lawrence and Santayana and he maps the ideas about love in Continental existentialism particularly those of Sartre and de Beauvoir Singer finally envisages a future of cooperation between pluralistic humanists and empirical scientists This last volume of Singer's trilogy does not pretend to offer the final word on the subject any more than do most of the philosophers he discusses but his masterful work can take its place beside their earlier investigations into these vast and complex questions

Routledge History of Philosophy Volume VIII Richard Kearney, 2003-12-23 Continental philosophy as it has emerged in the twentieth century is less a seamless fabric than a patchwork of diverse strands Phenomenology hermeneutics existentialism structuralism critical theory deconstruction these are some of the salient movements which have developed in continental Europe between 1900 and the 1990s though their influence is by no means confined to geographic location Continental thought has proved highly exportable circulating far beyond the frontiers of Europe to provoke strong responses in the intellectual world at large The

fifteen articles in this volume outline and assess some of the issues and experiments of continental philosophy. The first five span the twin movements of phenomenology and existentialism running from Husserl and Heidegger to Sartre, Merleau-Ponty and Levinas. Subsequent essays deal with specific currents of continental thought in such areas as science, Marxism, linguistics, politics, aesthetics, feminism and hermeneutics. A final chapter on postmodernism highlights the manner in which so many concerns of continental thought culminate in a radical anti-foundationalism. This volume provides a broad scholarly introduction to this period for students of philosophy and related disciplines as well as some original interpretations of these authors. It includes a glossary of technical terms and a chronological tube of philosophical, scientific and other cultural events.

Out of Control Richard A. Cohen, 2016-05-09 After the end of superstitious religion, what is the meaning of the world? Baruch Spinoza's answer is truth; Emmanuel Levinas's is goodness; science versus ethics. In *Out of Control*, Richard A. Cohen brings this debate to life, providing a nuanced exposition of Spinoza and Levinas and the confrontations between them in ethics, politics, science and religion. Spinoza is the control: the inexorable, defensive logic of administrative rationality where freedom is equated to necessity, a seventeenth-century glimpse of Orwellian doublespeak and Big Brother. Levinas is the way out: transcendence, not of God, being and logic, but of the other person experienced as moral obligation. To alleviate the suffering of others, nothing is more important. Spinoza wagers everything on mathematical truth, discarding the rest as ignorance and illusion. For Levinas, nothing surpasses the priorities of morality and justice to create a world in which humans can be human and not numbers or consumers, drudges or robots. Situating these two thinkers in today's context, *Out of Control* responds to the fear of dehumanization in a world flattened by the alliance of positivism and plutocracy. It offers a nonideological, ethical alternative: a way out and up in the nobility of one human being helping another and the solidarity that moves from morality to justice.

Becoming Apostolic Catherine Sexton, 2024-07-01 This book explores the experience and understanding of Roman Catholic sisters of their vocation to the apostolic form of religious life as they age. Based on interviews with twelve religious women, it draws on the practice of *Lectio Divina* to explore how these women describe their call to service and activity at a time in life when these might be curtailed by physical diminishment and increasingly reduced social interaction and influence. As the very institutions of religious life are themselves under threat, the book identifies new, emerging forms of ministry through presence to each other and to their carers.

The Religious Existentialists and the Redemption of Feeling Anthony Malagon, Abi Doukhan, 2019-06-27 Traditional philosophizing has generally depended upon reason as its primary access to truth. Subjective experiences such as feelings, the passions and emotions have typically been viewed as secondary to reason, untrustworthy or both. *The Religious Existentialists and the Redemption of Feeling* revisits how the movement of existentialism via the religious existentialists has contributed to a rethinking of the role of subjective experience in contrast to the rationalist and idealist traditions, thus reframing the importance of feelings in general for the philosophical enterprise as a whole. Through the considerations of a variety of thinkers, this collection provides a fresh look at

the contributions of twentieth century existentialists thereby re contextualizing the very notion of existentialism offering a powerful and genuine re evaluation of the significance of subjectivity and underscoring the continued relevance of the religious existentialists *Revelation and Convergence* Mark Bosco, Brent Little, 2017 *Revelation Convergence* brings together professors of literature theology and history to help both critics and readers better understand Flannery O Connor s religious imagination *Lonergan's Quest* William A. Mathews, 2005-01-01 In *Lonergan s Quest* William A Mathews details the genesis researching composition and question structure of *Insight* *Israel's Original Sin* Richard J. Rolwing, 2002-05 **WAS THE GOD OF JOSHUA THE GOD OF JESUS** A relook at modern Israel s roots in ancient Israel salva tion history biblical inspiration partial revelation imperfect theology and misguided leaders among Jews Muslims and Christians It asks considering Mohammed Ben Gurion and Harry Truman if Joshua has not had as much influence on western civilization as Jesus What on earth is God doing in the Middle East Do Uncle Sam and his protoge Israel justify divine providence in human history Do victories in war and success in business prove God s blessing and do failures in finance and disasters in health Aids manifest God s displeasure How does Christ s cross theology fit into history politics This book is indeed thoughtful and creative It highlights the need for all of us today to be much more self critical especially for us Christians to see how domination theology has been a part of our own approach Fr Dr James Bacik author of *Apologetics and the Eclipse of Mystery*
