Mystical Imagery Santa Teresa De Jesus And San Juan De La Cruz:

Mystical Imagery Elizabeth Teresa Howe, 1988 The book examines the use of mystical imagery in the literary works of the 16th century Spanish writers and mystics Santa Teresa de Jesus and San Juan de la Cruz In addition to the variety of sources on which they draw and the influence they exercise on later generations what emerges in the study is a multivalent use of diverse images that is the mystics means of grappling with the ineffable nature of mystical union **Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night** N. Grace Aaron, 2005 Thought and Poetic Structure in San Juan de la Cruz s Symbol of Night is a comprehensive appraisal of the traditional critical perspectives of mysticism philosophical theological literary and psychological Examining the a priori limitations of these approaches the book presents an original definition of the symbol as an integral whole of experience and expression and concludes that night is the form the organizing principle of spiritual life Islam, Christianity and the Mystic Journey Ian Richard Netton, 2011-04-30 This distinctive comparison of Islamic and Christian mysticism focuses on the mystic journey in the two faith traditions the journey which every believer must make and which leads to the Divine The author clears away misconceptions and highlights similarities and differences in the thought and lives of six key mystics Al Kalabadhi Al Daylami Al Qushayri Julian of Norwich Thomas a Kempis and Teresa of Avila He considers the ways of Perfection on the Mystic Path and asks in what ways these authors have embarked on the mystic journey He looks at the themes they have in common as well as their differences and asks how they envisage the concept of union with the Deity Readers will gain a broad understanding of the interdisciplinary and intertextual nature of the subject as well its the diverse intellectual and historical contexts **The Contemporary Challenge of John of the Cross: An Introduction to His Life and Teaching** Leonard Doohan, 2014-01-22 A clear and simple introduction to the life writings and message of the Mystical Doctor stressing always the practical applications of his teaching and example for today s Christians **The Mystical Science of the Soul** Jessica A. Boon, 2012-01-01 Ultimately I propose that considering internalization as embodiment is a critical methodological shift in understanding mystical methods in general and especially for probing recollection mysticism in depth The inner man as opposed to the outer man is a Pauline and Lutheran commonplace that is too frequently taken out of context leading historians of the Renaissance in general and of Spanish Renaissance religion in particular to value references to internal or mental methods of spirituality as an improvement over external or bodily rituals This book takes its cue from the recent cognitive turn in medieval studies that complicates studies of the body in religion by focusing on the embodied aspects of cognition claiming a continuum between body and soul rather than a hierarchy I argue that medieval theories of cognition made the divorce of the body from the soul impossible for a Galenic doctor even one who spoke of the body and the world with contempt and by implication impossible for his Castilian audience Without serious consideration of Laredo s reliance on an embodied soul rather than on a body soul dualism therefore no proper assessment of the unitive stage of recogimiento can be made Introduction p 6 7 **Subversion**

and Liberation in the Writings of St. Teresa of Avila Antonio Pérez-Romero, 2023-04-12 **St. John of the Cross** Colin P. Thompson, 2003 Looking for connections between his verse and prose Colin Thompson argues for a theological understanding of the intensely beautiful and moving poems He seeks to explain the principles that guide St John in his exploration of the self and its encounter with the divine and provides an analysis of the poet most famous symbol the dark night of the soul **BOOK JACKET** *A New Companion to Hispanic Mysticism* Hilaire Kallendorf, 2010 The canon of Hispanic mysticism is expanding No longer is our picture of this special brand of early modern devotional practice limited to a handful of venerable saints Instead we recognize a wide range of marginal figures as practitioners of mysticism broadly defined Neither do we limit the study of mysticism necessarily to the Christian religion nor even to the realm of literature Representations of mysticism are also found in the visual plastic and musical arts The terminology and theoretical framework of mysticism permeate early modern Hispanic cultures Paradoxically by taking a more inclusive approach to studying mysticism in its marginal manifestations we draw mysticism in all its complex iterations back toward its rightful place at the center of early modern spiritual experience Contributors Colin Thompson Alastair Hamilton Christina Lee Clara Herrera Darcy Donahue Elena del Rio Parra Evelyn Toft Fernando Duran Lopez Piansisco Morales Freddy Dominguez Glyn Redworth Jane Ackerman Jessica Boon Jose Adriano de Freitas Carvalho Luce Lopez Barat Maria Mercedes Carrion Maryrica Lottman and Tess Knighton *From Ignatius Loyola to John of the Cross* Terence O'Reilly, 2024-10-28 The 16th century saw the rise of movements of religious reform which in Spain as elsewhere contributed to make the history of the period such a ferment In these essays Terence O'Reilly is concerned with the writings produced by these movements notably Illuminism the early Jesuits Erasmianism and the Carmelite reform and with the mixture of medieval and new literary conventions that they display The book first deals with Ignatius Loyola and his *Spiritual Exercises* examining its origins in his experience of conversion and the books he read and locating him not in the period of the militant Counter Reform but in an earlier world linked to the teachings of 16th Spanish Erasmians and illuminists One study hitherto unpublished presents the lost treatise in which the Dominican Melchor Cano argued that Ignatius was an *alumbrado* The following sections move to the later the century considering the connections between spirituality and literature in works such as the ode to Salinas and above all in the mystical poetry of John of the Cross and its basis in exegesis and liturgical and devotional texts **The Christian Literary Imagination** Michael Scott, Michael J. Collins, 2024-09-24 What is the Christian literary imagination That question was put to the writers who have contributed to this collection of essays They were asked in answering it to choose and write about a work of literature that seemed to them to illustrate one of the varied ways in which the Christian imagination sees the world to define by example the meaning of the term A variety of beliefs or indeed unbeliefs are expressed by the contributors and authors they selected to discuss But what the essays have in common is an inquiry into the nature of belief and the means by which the reader's imagination can itself be stirred through the work of the author under discussion The

book is structured chronologically with essays on literature ranging from Anglo Saxon England to 21st Century America but the contributors show a freedom of movement and reference across the centuries in their essays sometimes deliberately juxtaposing the historical with the contemporary What emerges from the collection is a shared inquiry into the enduring Christian vision of God's engagement with the world
