Hearing Visions and Seeing Voices

Gerrit Glas, Moshe Halevi Spero, Peter J. Verhagen, Herman M. van Praag, 2007-09-09 The chapters in this book are based on papers that were presented at the international conference Psychological Aspects of Biblical Concepts and Persons 4 6 March 2002 in Amsterdam The conference was organized by the Dutch Foundation for Psychiatry and Religion in Dutch Stichting Psychiatrie en Religie a small but active and lively organization which organizes conferences and post graduate education for mental health professionals and which offers a platform for interdisciplinary research and discussion in the field of mental health and religion The organizers of the conference Gerrit Glas Herman M van Praag and Peter J Verhagen are members of the board of the Foundation All three are psychiatrists two of them are also professionally occupied in another discipline theology Verhagen and philosophy Glas The primary aim of the conference was to create a space for scientific dialogue between two disciplines with a troubled and complex relationship psychiatry and theology The exchange of opinions and viewpoints between specifically these two fields has dried up in the course of the past century and has virtually been absent from around 1960 till at least the early nineties of the previous century I need to clarify that we were quite specific in isolating theology and psychiatry instead of focusing on theology and psychology or biblical studies and psychology or theology and psychoanalysis Psychology and psychoanalysis do not seem to have lost all contact with theology at least not to such an extent as have psychiatry and theology

Pagan Mysticism Michael York, 2018-12-10 As a non dogmatic religion paganism is a spirituality that is variously interpreted in terms of nature worship this worldliness the valuing of the physical and multiple understandings of the sacred Like most religions pagan spirituality also entertains the experience of mystical ecstasy as an intense state of psycho spiritual consciousness that radically diverges from ordinary waking awareness This volume addresses two fundamental questions namely how do the world's religions understand the mystical and its pursuit and how and why does paganism offer something different Proverbially the mystical quest is an ultimate human endeavour The re emergence of pagan thought in contemporary times challenges the obsolete and unlocks both innovation and available forms of transpersonal emancipation
