The Mystical Element in the Metaphysical Poets of the Seventeenth Century Itrat Husain, 1966 **The ^AArt of Mystical Narrative** Eitan P. Fishbane, 2018-11-22 In the study of Judaism the Zohar has captivated the minds of interpreters for over seven centuries and continues to entrance readers in the modern day Yet despite these centuries of study very little attention has been devoted to the literary dimensions of the text The Art of Mystical Narrative argues that the Zohar story must be understood first and foremost as a work of the fictional imagination *Divine Deviants* Manijeh Mannani, 2007 Original Scholarly Monograph **A George Herbert Companion (Routledge Revivals)** Robert H. Clements, 1990-01-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing

regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists

Aldous Huxley and the Mysticism of Science J. Deery, 1996-07-05 Can religious belief survive in a scientific era Aldous Huxley thought so His early recognition of the profound significance of twentieth century science and the need for moral and spiritual direction resulted in his espousal of mysticism An examination of his fiction and nonfiction reveals Huxley s significance for cross disciplinary debates between religion science and literature and provides examples of the transmission or refraction of knowledge from one discourse to another
