

MYTHS

Myths are traditional narratives that often involve gods, heroes, and supernatural beings, explaining the origins of the world, natural phenomena, and human behavior.

OVERVIEW

Myths are deeply rooted in cultural and religious beliefs, shaping the collective identity and values of a society. Myths serve as a means of understanding and interpreting the world, conveying moral lessons, and providing a framework for societal norms and rituals. They tend to vary across cultures and may contain elements of both fact and fiction.

EXAMPLE

Pandora's Box: In Greek mythology, Pandora, the first woman on earth, was given a box by Zeus, but was instructed never to open it. Overcome by curiosity, Pandora finally opened the box, inadvertently releasing all manner of evils, diseases, and pain into the world. The only thing left inside was Hope, symbolizing humanity's solace in the face of adversity.

Movies and Methods Bill Nichols,1976 VOLUME 2 Movies and Methods Volume II captures the developments that have given history and genre studies imaginative new models and indicates how feminist structuralist and psychoanalytic approaches to film have achieved fresh valuable insights In his thoughtful introduction Nichols provides a context for the paradoxes that confront film studies today He shows how shared methods and approaches continue to stimulate much of the best writing about film points to common problems most critics and theorists have tried to resolve and describes the internal contradictions that have restricted the usefulness of post structuralism Mini introductions place each essay in a larger context and suggest its linkages with other essays in the volume A great variety of approaches and methods characterize film writing today and the final part conveys their diversity from statistical style analysis to phenomenology and from gay criticisms to neoformalism This concluding part also shows how the rigorous use of a broad range of approaches has helped remove post structuralist criticism from its position of dominance through most of the seventies and early eighties Publisher description
