William Dearing Harden, 1893 Myth and Religion, Or, An Enquiry Into Their Nature and Relations William Nicolson, 1892

Christianity and Rabbinic Judaism Jonas E. Alexis, 2013 Our way must be never knowingly support lies Having understood where the lies begin step back from that gangrenous edge Let us not glue back the flaking scale of the Ideology not gather back its crumbling bones nor patch together its decomposing garb and we will be amazed how swiftly and helplessly the lies will fall away and that which is destined to be naked will be exposed as such to the world Alexander Solzhenitsyn Enlightenment writer Voltaire was amazed that twelve fishermen some of them unlettered from an obscure place in the world called Galilee challenged an empire through self denial and patience and eventually established Christianity He seriously thought that twelve philosophers or intellectuals himself included would do the opposite and crush Christianity Voltaire s self appointed cheerleaders such as Diderot Helvitius d Holbach D Alembert Lametrie and Baron Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lametrie produced *Man A Machine* and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying *crasez l inf me* Rousseau of course was a disciple of Voltaire and declared that Voltaire s work inspired me The French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross Bultmann Unlocked Tim Labron, 2011-01-13

The Unexpected Christian Century Scott W. Sunquist, 2015-09-29 In 1900 many assumed the twentieth century would be a Christian century because Western Christian empires ruled most of the world What happened instead is that Christianity in the West declined dramatically the empires collapsed and Christianity s center moved to Africa Asia Latin America and the Pacific How did this happen so quickly Respected scholar and teacher Scott Sunquist surveys the most recent century of Christian history highlighting epochal changes in global Christianity He also suggests lessons we can learn from this remarkable global Christian reversal Ideal for an introduction to Christianity or a church history course this book includes a foreword by Mark Noll Also a History of Philosophy, Volume 1 Jürgen Habermas, 2023-08-23 This is the first volume of a ground breaking new work by Jürgen Habermas on the history of philosophy In this major new work Habermas sets out the ideas that inform his systematic account of the history of Western philosophy as a genealogy of postmetaphysical thinking

His account goes far beyond a vindication of the enduring relevance of philosophical reflection founded on communicative reason as a source of orientation in the modern world. He contrasts this conception with prominent diagnoses of the supposed crisis of Enlightenment reason and culture that seeks redemption in the affirmation of traditional religious authority. Schmitt the timeless validity of Greek metaphysics. Strauss a numinous conception of nature. Levinas with an occurrence of being that speaks to us from beyond the mists of pre-Socratic thought. Heidegger. Habermas situates Western philosophy in relation to traditions of thought founded in the major worldviews: Judaism, Buddhism, Confucianism, and Taoism that continue to shape contemporary culture and civilization. At the same time he lays the groundwork for his analysis in the later volumes of the constitutive role played by the discourse on faith and knowledge in the development of Western philosophy which is the result of the unique symbiosis that Christianity entered into with Greek thought with the Christianization of the Roman Empire. Far from raising claims to exclusivity, completeness, or closure, Habermas's history of philosophy published in English in three volumes opens up new lines of research and reflection that will influence the humanities and social sciences for decades to come.

Sacred Narrative Alan Dundes, 1984-11-15 Alan Dundes defines myth as a sacred narrative that explains how the world and humanity came to be in their present form. This new volume brings together classic statements on the theory of myth by the authors. The twenty-two essays by leading experts on myth represent comparative functionalist, myth, ritual, Jungian, Freudian, and structuralist approaches to studying the genre.

The Spirit World in the Letters of Paul the Apostle Guy Williams, 2009-09-16 Guy Williams beleuchtet die Rolle der Geistwesen in den echten paulinischen Briefen. Entgegen der weit verbreiteten Ansicht, Geister und spirituelle Wesen seien für Paulus unbedeutend und trivial gewesen, vertritt Williams die These, dass diese inhärenten Merkmale der Briefe darstellten. Die Berücksichtigung ihres historischen und kulturellen Hintergrundes zeigt, dass die Vorstellung von den Einwohnern der paulinischen Geistwelt den Engeln, Dämonen, Kräften und Satan, denen das allgemeine Gedankengut entspricht, schließlich bezieht Williams die Ergebnisse seiner Untersuchung auf drei Bereiche: Paulus Christologie, seine Soteriologie und seine Vorstellung von Gemeinschaft. Sein Ansatz erlaubt einen frischen Blick auf Ort und Bedeutung von spirituellen Wesen bei Paulus nicht im Sinne einer neuen Doktrin, aber als allgemeines und kulturelles Idiom der paulinischen Texte.

Irreconcilable Differences? Jason C. Robinson, David Peck, 2015-03-17 What if philosophy, theology, and science spent a little more time together? These fields often seem at odds, butting metaphysical heads. Instead of talking at how about talking with one another. This book engages three academic disciplines distinct yet sharing much in common in a slice of conversation and community in which participants have aimed at validating the other and the way the other sees the world. The result is a collection of essays united by a thread that can be hard to find in academia. In bringing together a wide range of contributors on a project that at first seemed unlikely, *Irreconcilable Differences* is also a testament to the spirit of cooperation and hard work, evidence that small acts and events can make a big difference and that sometimes all you need in order to make something good happen is

an idea with a little support along the way The editors of this collection are hopeful that its contributors and readers will keep looking for ways to bridge academic social and political gaps We need to forge relationships based on personal knowledge and proper confidence seeking to make meaningful claims in an increasingly complex world
