Myth Ritual And Religion 1901:

Myth, Ritual and Religion Andrew Lang, 1887 *Myth Ritual and Religion* is a classic mythology studies text by Andrew Lang. When this book first appeared in 1886, the philological school of interpretation of religion and myth, being then still powerful in England, was criticised and opposed by the author. In *Science as on the Turkish throne of old Amurath*, to Amurath succeeds the philological theories of religion and myth; have now yielded to anthropological methods. The centre of the anthropological position was the ghost theory of Mr Herbert Spencer, the Animistic theory of Mr E R Tylor, according to whom the propitiation of ancestral and other spirits leads to polytheism and thence to monotheism. In the second edition of 1901 of this work, the author argued that the belief in a relatively supreme being anthropomorphic was as old as and might be even older than animistic religion. This theory he exhibited at greater length and with a larger collection of evidence in his *Making of Religion*. Since 1901, a great deal of fresh testimony as to what Mr Howitt styles the All Father in savage and barbaric religions has accrued. As regards this being in Africa, the reader may consult the volumes of the *New Series of the Journal of the Anthropological Institute* which are full of African evidence not as yet discussed to my knowledge by any writer on the *History of Religion*. As late as May for July 1906, No 66, Mr Parkinson published interesting Yoruba legends about Oloron, the maker and father of men, and Oro, the Master of the Bull Roarer.

The Science of Religion in Britain, 1860-1915 Marjorie Wheeler-Barclay, 2010-10-21 Marjorie Wheeler Barclay argues that although the existence and significance of the science of religion has been barely visible to modern scholars of the Victorian period it was a subject of lively and extensive debate among nineteenth century readers and audiences She shows how an earlier generation of scholars in Victorian Britain attempted to arrive at a dispassionate understanding of the psychological and social meanings of religious beliefs and practices a topic not without contemporary resonance in a time when so many people feel both empowered and threatened by religious passion and provides the kind of history she feels has been neglected Wheeler Barclay examines the lives and work of six scholars Friedrich Max Müller Edward B Tylor Andrew Lang William Robertson Smith James G Frazer and Jane Ellen Harrison She illuminates their attempts to create a scholarly non apologetic study of religion and religions that drew upon several different disciplines including anthropology sociology the classics and Oriental studies and relied upon contributions from those outside as well as within the universities This intellectual enterprise variously known as comparative religion the history of religions or the science of religion was primarily focused on non Christian religions Yet in Wheeler Barclay s study of the history of this field within the broad contexts of Victorian cultural intellectual social and political history she traces the links between the emergence of the science of religion to debates about Christianity and to the history of British imperialism the latter of which made possible the collection of so much of the ethnographic data on which the scholars relied and which legitimized exploration and conquest Far from promoting an anti religious or materialistic agenda the science of religion opened up cultural space for an exploration of religion that was not constricted by the terms of contemporary conflicts over Darwin and the Bible and that made it possible to think in new and more flexible ways about the very definition of religion

Friedrich Max Müller and the Role of Philology in Victorian Thought John R. Davis, Angus Nicholls, 2019-05-16 The German comparative philologist Friedrich Max Müller 1823 1900 was one of the most influential scholars in Victorian Britain Müller travelled to Britain in 1846 in order to prepare a translation of the Rig Veda This research visit would turn into a lifelong stay after Müller was appointed as Taylor Professor of Modern Languages at Oxford in 1854 Müller s activities in this position would exert a profound influence on British intellectual life

during the second half of the nineteenth century his book length essay on Comparative Mythology 1856 inspired evolutionist thinkers such as Herbert Spencer and Edward Burnett Tylor and made philology into one of the master sciences at mid century his debates with Charles Darwin and his followers on the origin of language constituted a significant component of religiously informed reactions to Darwin s ideas about human descent his arguments concerning the interdependence of language and thought influenced fields such as psychology neurology paediatrics and education until the end of the nineteenth century his theories concerning an Aryan language that purportedly predated Sanskrit and ancient Greek led to controversial debates on the relations between language religion and race in the Indian subcontinent and beyond and his monumental 50 volume edition of the Sacred Books of the East helped to lay the foundations for the study of comparative religion M ller s interlocutors and readers included people as various as Alexander von Humboldt Darwin George Eliot Matthew Arnold Friedrich Nietzsche Ferdinand de Saussure Ernst Cassirer Mohandas K Gandhi and Jawaharlal Nehru This volume offers the most comprehensive and interdisciplinary assessment of M ller s career to date Arising from a conference held at the German Historical Institute in London in 2015 it brings together papers by an international group of experts in German studies German and British history linguistics philosophy English literary studies and religious studies in order to examine the many facets of M ller s scholarship This book was originally published as a special issue of the Publications of the English Goethe Society Myth, Ritual, and Religion Andrew Lang, 2019-04-20 When this book first appeared 1886 the philological school of interpretation of religion and myth being then still powerful in England was criticised and opposed by the author In Science as on the Turkish throne of old Amurath to Amurath succeeds the philological theories of religion and myth have now yielded to anthropological methods The centre of the anthropological position was the ghost theory of Mr Herbert Spencer the Animistic theory of Mr E R Tylor according to whom the propitiation of ancestral and other spirits leads to polytheism and thence to monotheism In the second edition 1901 of this work the author argued that the belief in a relatively supreme being anthropomorphic was as old as and might be even older than animistic religion This theory he exhibited at greater length and with a larger collection of evidence in his Making of Religion Since 1901 a great deal of fresh testimony as to what Mr Howitt styles the All Father in savage and barbaric religions has accrued As regards this being in Africa the reader may consult the volumes of the New Series of the Journal of the Anthropological Institute which are full of African evidence not as yet discussed to my knowledge by any writer on the History of Religion As late as Man for July 1906 No 66 Mr Parkinson published interesting Yoruba legends about Oloron the maker and father of men and Oro the Master of the Bull Roarer **The Evolution of the Messianic Idea** William Oscar Emil Oesterley, 1908 Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both

advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all. Students in particular are likely to turn to the web to find quick background information on theorists and theories. However, most web-based information is inaccurate and/or lacks depth. Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics: the who, what, where, how, and why, if you will. In response, SAGE Reference plans to publish the two-volume *Theory in Social and Cultural Anthropology: An Encyclopedia*. Features/Benefits: Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory, both in terms of breadth and depth of coverage. To ease navigation between and among related entries, a Reader's Guide groups entries thematically, and each entry is followed by Cross References. In the electronic version, the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities. An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present. Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion.
